Managing Arms in Peace Processes Jianwei Wang, 1996

United Nations Disarmament Processes in Intra-State Conflict S. Hill, 2004-10-01 During the 1990s the United Nations was called upon to conduct unprecedented peacekeeping and humanitarian operations in order to bring peace to war torn states Essential to the resolution of these conflicts was deemed to be the disarmament of the former warring parties United Nations Disarmament Processes in Intra State Conflict therefore seeks to identify the most important lessons taught by the UN s experiences in disarmament and constructs an original analytical framework to explain the variation in the UN s success On this basis Stephen M Hill proffers recommendations for the UN s present and future disarmament operations

Small Arms and Security Denise Garcia, 2006-09-27 This book examines the emergence of new international norms to govern the spread of small arms and the extent to which these norms have been established in the policies and practices of states regions and international organizations It also attempts to establish criteria for assessing norm emergence and to assess the process of norm development by comparing what actually happens at the multilateral level If norm making on small arms and related multilateral negotiations have mostly dealt with illicit arms and most of the norms examined here fall on the arms supplier side of the arms equation the author argues that the creation of international norms and the setting of widely agreed

standards amongst states on all aspects of the demand for availability and spread of both legal and illegal small arms and light weapons must become central to the multilateral coordination of policy responses in order to tackle the growing violence associated with small arms availability Small Arms and Security will be of interest to researchers and professionals in the fields of peace and conflict studies global governance international security and disarmament *Contemporary Peace Making* J. Darby, R. Mac Ginty, Roger Mac Ginty, 2002-12-19 *Contemporary Peace Making* draws on recent experience to identify and explore the essential components of peace processes Each chapter examines a different element in recent peace processes The collection is organized around five main themes planning for peace during periods of violence the process of negotiations including pre negotiation the effects of violence on peace processes peace accords constitutional and political options and securing the settlement and building the peace *Managing Arms in Peace Processes* Marcos Mendiburu, Sarah Meek, 1996 *Nordic Approaches to Peace Operations* Peter Viggo Jakobsen, 2006 A new examination of Nordic approaches to peace operations after the Cold War It shows how the Nordic countries Denmark Finland Norway and Sweden remain relevant for the study and practice of post Cold War peace operations This unique study is structured around eleven success conditions derived from an analysis of the lessons learned since the early 1990s ensuring that the results of the case studies are directly comparable These case studies are supplemented by an analysis of Nordics collective efforts to replace their old Cold War peacekeeping model with a new one that meets the requirements of the new era The overall conclusion is that the Nordics have succeeded in meeting the post Cold War requirements for success both individually and collectively and that a new effective model is in the making This book makes several important contributions to the literature on peace operations First it demolishes the widely held view that the Nordic countries remain a bastion of traditional Cold War peacekeeping with little relevance for contemporary operations Second it constitutes the first systematic overview of the reforms undertaken by the four Nordic countries since the end of the Cold War Third it fills a historical gap by providing a comprehensive analysis of the celebrated old Nordic Cold War model explaining how and why it developed and how it functioned Finally the analytical framework is a general tool which can be used to evaluate the approaches to peace operations employed by countries around the world This book will be of great interest to all students of peacekeeping peace studies security studies and IR in general

Small Arms Control Jayantha Dhanapala, Mitsuro Donowaki, Lora Lumpe, 2019-01-04 First published in 1999 the papers collected in this volume were originally prepared for four workshops organized by the UN Department for Disarmament Affairs to inform the work of the Panel of Governmental Experts on Small Arms These workshops were held during 1995 96 Some of the authors updated their papers for publication in early 1998 Lora Lumpe senior fellow with the Norwegian Initiative on Small Arms Transfers in Oslo and Tamar Gabelnick Acting Director of the Arms Sales Monitoring Project at the Federation of American Scientists in Washington DC edited the presentations for this book *The Politics of Post-War Demobilisation and Reintegration in Nigeria* Olukunle Ojeleye, 2016-02-24 With an increasing international interest in post

civil war demobilisation and reintegration especially in Africa Ojeleye presents a well timed body of knowledge on the Nigerian civil war Moreover this book provides an in depth study of the modalities and processes of the demobilisation and reintegration exercises carried out at the end of the Nigerian civil war and assesses their implications for national politics in the West African nation The author identifies the political socio economic and cultural background to the Nigerian civil war and discusses the central theme of demobilisation disarmament and reintegration DDR in Nigeria against the backdrop of the policy of the country s post war reconstruction reconciliation and rehabilitation exercise the 3Rs Though the central theme is Nigeria it compares the demobilisation and reintegration exercise in Nigeria with other attempts in Sub Sahara Africa by highlighting the important deviations and drawing some conclusions on the Nigerian experience It also touches on issues relating to international involvement and intervention in civil wars and the roles of the African Union the Commonwealth of Nations and the United Nations

More than Fighting for Peace? David Curran, 2016-11-25 This book provides a contemporary account of the linkages between the academic field of conflict resolution and the practice of military peacekeeping through the lens of pre deployment training for military personnel about to embark on UN peacekeeping operations Military personnel serving on United Nations peacekeeping operations are deployed into highly challenging post conflict environments where the likelihood of violence remains high Moreover these personnel are deployed part of a wider peace process and are thus situated as an anchor point in a transition from war to peace This dimension of their work therefore means that a range of skills and techniques are relied upon which come not from traditional military training but from other non traditional fields It is into this gap where the academic field of conflict resolution has made a valuable contribution to understanding international peacekeeping Since the 1970 s studies have sought to understand international peacekeeping as a necessary stage in conflict de escalation and ultimately transformation From this there is a history of engagement including studies which seek to understand the skills peacekeepers may need to assist them in their day to day activities and the role that international peacekeeping plays in wider projects of conflict transformation *Peace Watch* ,1995
