Mar Cristianos Del Oriente En Mexico:

Empresarios novohispanos y sus vínculos en el Pacífico insular, siglo XVIII María Cristina Torales Pacheco, 2019-05-20

Las aportaciones que se han hecho desde perspectivas económicas y estéticas en relación a la interacción entre México y Filipinas son sin duda invaluable y constituyen un soporte sustantivo para la comprensión de las relaciones sociales entre ambas naciones. El presente trabajo propone dar un paso más en este sentido ofrece luz sobre diversos actores sociales de Nueva España y del Pacífico insular a partir del estudio de la comunicación epistolar que sostuvieron Francisco Ignacio de Yraeta y Felipe de Yriarte comerciantes de origen navarro y vasco respectivamente con comerciantes de Manila entre 1768 y 1797. Desde la óptica de las élites vascongadas que se mantuvieron en el liderazgo económico político e intelectual durante el siglo XVIII tanto en Nueva España como en las islas Filipinas podemos ver las huellas de un complejo tejido social que participó en la interacción transpacífica. A través de la lectura de estas cartas podemos imaginar a aquellas personas y mercancías que cruzaban los océanos: el trabajo de los amanuenses atentos al dictado de las misivas de los mensajeros encargados de entregarlas; transportistas de plata, seda o cochinilla; capitanes y tripulantes de galeones; religiosos a quienes se confiaba el traslado de objetos preciosos o dinero; monjas del convento de Santa Clara en Manila; en fin, tantos actores sociales que suelen pasar desapercibidos en los trabajos de historiografía.

La domesticación de Asia. El arte transpacífico en Nueva España en el siglo XVII Sonia Irene Ocaña Ruiz, El título de este libro *La domesticación de Asia. El arte transpacífico en Nueva España en el siglo XVII* alude a que dicho virreinato fue el primer lugar fuera de Asia donde el arte asiático llegó a ser cotidiano a escala doméstica. Hacia 1600 en distintos ámbitos sociales y geográficos había objetos asiáticos de lujo pero también otros más asequibles. A partir de una revisión documental se estudia el consumo virreinal de lacas, biombos, porcelana y marfiles japoneses, chinos y filipinos. A la vez se analizan biombos enconchados y loza de inspiración asiática que demuestran que el arte novohispano no solo remite a América y Europa sino a menudo también a Asia.
