Martin Heidegger And The Question Of Literature:

Martin Heidegger and the Question of Literature William V. Spanos, 1979 **Heidegger and Literary Studies** Andrew Benjamin, 2023-11-08 Martin Heidegger is one of the most influential philosophers of the 20th Century and a key philosophical resource for literary critics Not only has he written about poetry generations of poets have engaged his writings And yet for Heidegger poetry and literature are separate An essential part of the project of this book therefore is to show how both the distinction and connection between literature and poetry is staged within Heidegger's thought It offers Heidegger's perspective on a range of key themes topics poets and writers including Poetry and Poetics Ancient Greek theatre and tragedies and then specifically Friedrich Hölderlin Thomas Mann Paul Celan Euripides and Sophocles As the Chapters comprising this book make clear Heidegger's work remains indispensable for any serious engagement with either literature or poetry today **Hopkins and Heidegger** Brian Willems, 2011-10-27 Hopkins and Heidegger is a new exploration of Gerard Manley Hopkins' poetics through the work of Martin Heidegger More radically Brian Willems argues that the work of Hopkins does no less than propose solutions to a number of hitherto unresolved questions regarding Heidegger's later writings vitalizing the concepts of both writers beyond their local contexts Willems examines a number of cross sections between the poetry and thought of Hopkins and the philosophy of Heidegger While neither writer ever directly addressed the other's work Hopkins died the year Heidegger was born 1899 and Heidegger never turns his thoughts on poetry to the Victorians a number of similarities between the two have been noted but never fleshed out Willems' readings of these cross sections are centred on Hopkins' concepts of inscape and instress and around Heidegger's reading of both appropriation Ereignis and the fourfold das Geviert This study will be of interest to scholars and postgraduates in both Victorian literature and Continental philosophy Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions **Poetry and the Question of Modernity** Ian Cooper, 2020-01-15 Interest in Martin Heidegger was recently reawakened by the revelations in his newly published Black Notebooks of the full

terrible extent of his political commitments in the 1930s and 1940s The revelations reminded us of the dark allegiances co existing with one of the profoundest and most important philosophical projects of the twentieth century one that is of incomparable importance for literature and especially for poetry which Heidegger saw as embodying a receptiveness to Being and a resistance to the instrumental tendencies of modernity Poetry and the Question of Modernity From Heidegger to the Present is the first extended account of the relationship between Heidegger s philosophy and the modern lyric It argues that some of the best known modern poets in German and English from Paul Celan to Seamus Heaney and Les Murray are in deep imaginative affinity with Heidegger s enquiry into finitude language and Being But the work of each of these poets challenges Heidegger because each appeals to a transcendence taking place in language that is inseparable from the motion of encounter with embodied others It is thus poetry which reveals the full measure of Heidegger s relevance in redefining modern selfhood and poetry which reveals the depth of his blindness

A Defense of Poetry Paul H. Fry, 1995 A Defense of Poetry argues that literature can be defined pragmatist and historicist arguments notwithstanding and that in its definition its unique value can be discovered In qualified opposition to the most sophisticated Formalist definitions involving redundancy or economy of expression the author identifies literature ontologically as a sign of the preconceptual as the ostensive moment that discloses neither the purpose nor the structure of existence but existence itself revealed in its nonhuman register

The Cambridge Companion to Heidegger Charles Guignon, 1993-02-26 This volume contains both overviews of Heidegger s life and works and analysis of his most important work Being and Time

Heidegger in Question Robert Bernasconi, 2022-05-09 Robert Bernasconi explores in the context of Heidegger s thought a number of questions of far reaching concern what is the role of literary examples within philosophy Is art dead What is the relation of art to nature Is there a place for the idea of a people in art and literary theory and in philosophy Is the history of philosophy to be written as a narrative What is the status of ethics within philosophy What place does philosophy give to praxis What is the place today of the belief in the nobility of the philosophical life What is the relation of politics to thought Reflecting a dominant concern of recent Heidegger scholarship the focal point of a number of the essays is the relation of Heidegger s own politics to his thought In addition to this examination of what appears to compromise Heidegger s philosophy Bernasconi explores its relation to the further possibilities which that thought has opened in the writings of Arendt Gadamer Levinas and Derrida

The Critique of Pure Modernity David Kolb, 1986 Modernity is a troubling concept not only for scholars but for the general public for it seems to represent a choice between oppressive traditions and empty rootless freedom Seeking a broader understanding of modernity Kolb first considers the views of Weber and then discusses in detail the pivotal writings of Hegel and Heidegger He uses the novel strategy of presenting Heidegger s critique of Hegel and then suggesting the critique of Heidegger that Hegel might have made Kolb offers his own views proposing the possibility of a meaningful life that is free but still rooted in shared contexts He concludes with comments on postmodernity as discussed by Lyotard and

others arguing persuasively against the presupposition of a unified Modern or Postmodern Age **Literature and Philosophy** Herbert Grabes, 1997 **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies

Derrida, Heidegger, Blanchot Timothy Clark, 1992-07-31 This book considers Derrida's reading of literature as a form of philosophical thinking **Anarchism and the Crisis of Representation** Jesse S. Cohn, 2006-09 Anarchism and the Crisis of Representation is intended to provide readers of literary criticism art history political philosophy and the social sciences with a fresh perspective from which to revisit dead end theoretical debates over concepts such as agency essentialism and realism and at the same time to offer a new take on anarchism itself challenging conventional readings of the tradition The anarchism that emerges from this reinterpretation is neither a musty rationalism nor a millenarian irrationalism but a living body of thought that points beyond the sterile antinomies of post modern and Marxist theory **BOOK JACKET** George Oppen and the Fate of Modernism Peter Nicholls, 2007-10-25 This study of 20th century American poet George Oppen promises to become a key resource for those interested not only in Oppen himself but in the history of literary modernism Drawing extensively on largely unpublished papers and presenting material that has not yet appeared in print Peter Nicholls gives a detailed account of Oppen's life and work enriched by close readings of many of his poems **The Technological Unconscious in German Modernist Literature** Larson Powell, 2008 Even after the end of modernism and postmodernism the grandiose fantasies of artifice and self reference that have informed so much modernist literature still resonate in the social constructivism of current literary and cultural theory in the idea that we can perform or construct identities or social roles without external constraint as if we had consumer choice of self Larson Powell's book posits nature as a limit to such fantasies redefining aesthetic modernity's conception of and relation to nature and therefore its relation to reality He shows how nature no longer the idealized maternally coded Utopia of the Romantics becomes the trace of specific political sexual and technological traumas The book's four chapters center on the representation of nature in German prose and especially poetry by Rainer Maria Rilke Gottfried Benn Bertolt Brecht and Alfred Döblin from the years 1900 to 1945 while making reference to other literatures as well Powell's term the Technological Unconscious refers to a point of intersection between psychoanalysis and social and scientific theories of modernism and also to the philosophical mediation between history and nature a motif important from Kant to Adorno Powell critiques the tendency toward jargon of an often merely rhetorical theory while continuing to develop the philosophical and conceptual inheritance of Continental traditions

He analyzes in connection with the works treated the conceptions of subject and system in the theories of Adorno Luhmann and Lacan and their relation to their complement nature The Technological Unconscious is thus an important polemical intervention both in the debates over interdisciplinarity and in those between eclectic culturalist theories such as New Historicism and postcolonialism on the one hand and systems theory and psychoanalysis on the other Book Jacket

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

W.B. Yeats and World Literature Barry Sheils, 2016-03-03 Arguing for a reconsideration of William Butler Yeats's work in the light of contemporary studies of world literature Barry Sheils shows how reading Yeats enables a fuller understanding of the relationship between the extensive map of world literary production and the intensities of poetic practice Yeats's appropriation of Japanese Noh theatre his promotion of translations of Rabindranath Tagore and Shri Purohit Swami and his repeated ventures into American culture signalled his commitment to moving beyond Europe for his literary reference points Sheils suggests that a reexamination of the transnational character of Yeats's work provides an opportunity to reflect critically on the cosmopolitan assumptions of world literature as well as on the politics of modernist translation Through a series of close and contextual readings the book demonstrates how continuing global debates around the crises of economic liberalism and democracy fanaticism asymmetric violence and bioethics were reflected in the poet's formal and linguistic concerns Challenging orthodox readings of Yeats as a late romantic nationalist W B Yeats and World Literature The Subject of Poetry makes a compelling case for reading Yeats's work in the context of its global modernity

Heidegger in the Literary World Florian Grosser, Nassima Sahraoui, 2021-11-17 Within the vast reception history of Martin Heidegger's philosophical thought poets novelists and playwrights have occupied a central place

This collection of essays opens up new perspectives by tracing the manifold often surprising ways in which Heideggerian concepts motifs and concerns have been taken up in literary and poetic writing since the middle of the 20th century In their contributions scholars from the Americas Asia and Europe explore intellectual constellations between Heidegger and selected literary figures such as John Ashbery Julia de Burgos Paul Celan Elfriede Jelinek and Velimir Khlebnikov The volume unveils the immense creativity that crystallizes in these poetic and literary traces and disseminations of Heidegger s thinking Hence it points to new and fruitful ways to critically intervene in current philosophical and literary debates *Heidegger, Levinas, Derrida: The Question of Difference* Lisa Foran,Rozemund Uljée,2016-09-30 This book explores the relation between Heidegger Levinas and Derrida by means of a dialogue with experts on the work of these mutually influential thinkers Each essay in this collection focuses on the relation between at least two of these three philosophers focusing on various themes such as Alterity Justice Truth and Language By contextualising these thinkers and tracing their mutually shared themes the book establishes the question of difference and its ongoing radicalization as the problem to which phenomenology must respond Heidegger s influence on Derrida and Levinas was quite substantial Derrida once claimed that his work would not have been possible without the opening of Heidegger s questions Equally as peers Derrida and Levinas commented on and critiqued each other s work By examining the differences between these thinkers on a variety of themes this book represents a philosophically enriching project and essential reading for understanding the respective projects of each of these philosophers **The Bloomsbury Handbook of Literary and Cultural Theory** Jeffrey R. Di Leo,2018-11-15 The Bloomsbury Handbook of Literary and Cultural Theory is the most comprehensive available survey of the state of theory in the 21st century With chapters written by the world s leading scholars in their field this book explores the latest thinking in traditional schools such as feminist Marxist historicist psychoanalytic and postcolonial criticism and new areas of research in ecocriticism biopolitics affect studies posthumanism materialism and many other fields In addition the book includes a substantial A to Z compendium of key words and important thinkers in contemporary theory making this an essential resource for scholars of literary and cultural theory at all levels
