*Tipping Point for a Hollow Earth: How Asimov and Sagan Backed My Prophecy of a Polar Hole Shift to Europe* Ruth Leedy Carr, 2025-05-14

An approaching Earth axis shift is the most pressing issue of our time and yet scientists have said almost nothing about it and the public is woefully ignorant You will see here why scientists have had so little to say about this coming disaster and also about the growing instability of hollow Mars The pictures of a lighted polar hole on the night side of Mars lighted by an internal sun will shock you The refusal of NASA to say one word about that night side light in response to a congressman s request is truly mystifying The willingness of all news media to sweep this issue under the rug must be seen as a betrayal of the first order Are we all lambs meekly heading for slaughter Isaac Asimov and Carl Sagan have provided a path that can lead us beyond the dismal future that has been marked out for us We are so lucky that they never gave up on us About the Author Ruth Leedy Carr gained some practice at science reporting while studying journalism at Indiana University Her second major was psychology and sociology also interested her and so the careful reporting of facts was central to almost all her college studies She began researching the cataclysmic prophecies of Edgar Cayce in relation to the hollow Earth theory in 1980 Her books of 1981 and 1983 were republished by Gray Barker of Saucerian Press who was the first publisher of Raymond Bernard s classic *The Hollow Earth* She was proclaimed by noted UFO researcher William L Moore to be the world s foremost proponent of the hollow Earth theory
