Military Sagas From The Daily Telegraph Competition:

Army-Navy-Air Force Register and Defense Times ,1905 **Battle of Wits** Stephen Budiansky,2000 This is the story of the Allied codebreakers puzzling through the most difficult codebreaking problems that ever existed *On the Psychology of Military Incompetence* Norman F Dixon,2016-05-31 A classic study of military leadership uncovering why generals fail The Crimea the Boer War the Somme Tobruk Pearl Harbor the Bay of Pigs these are just some of the milestones in a century of military incompetence of costly mishaps and tragic blunders Are these simple accidents as the bloody fool theory has it or are they inevitable The psychologist Norman F Dixon argues that there is a pattern to inept generalship and he locates this pattern within the very act of creating armies in the first place which in his view produces a levelling down of human capability that encourages the mediocre and limits the gifted In this light successful generals achieve what they do despite the stultifying features of the organization to which they belong On the Psychology of Military Incompetence is at once an original exploration of the battles that have defined the last two centuries of human civilization and an essential guide for the next generation of military leaders *The Bookman* ,1899 *United Services and Empire Review* ,1926 *Popular imperialism and the military, 1850-1950* John M. MacKenzie,2017-03-01 Colonial war played a vital part in transforming the reputation of the military and placing it on a standing equal to that of the navy The book is concerned with the interactive culture of colonial warfare with the representation of the military in popular media at home and how these images affected attitudes towards war itself and wider intellectual and institutional forces It sets out to relate the changing image of the military to these fundamental facts For the dominant people they were an atavistic form of war shorn of guilt by Social Darwinian and racial ideas and rendered less dangerous by the increasing technological gap between Europe and the world Attempts to justify and understand war were naturally important to dominant people for the extension of imperial power was seldom a peaceful process The entertainment value of war in the British imperial experience does seem to have taken new and more intensive forms from roughly the middle of the nineteenth century Themes such as the delusive seduction of martial music the sketch of the music hall song powerful mythic texts of popular imperialism and heroic myths of empire are discussed extensively The first important British war correspondent was William Howard Russell 1820 1907 of The Times in the Crimea The 1870s saw a dramatic change in the representation of the officer in British battle painting Up to that point it was the officer s courage tactical wisdom and social prestige that were put on display *Proceedings of the National Rifle Association* National Rifle Association (Great Britain),1874 The Publishers' Circular and Booksellers' Record ,1915

Aviation and Aeronautical Engineering ,1917 Minutes of Proceedings of the Royal Artillery Institution ,1981 *Army and Navy Journal* ,1924 **The North-China Herald & Supreme Court & Consular Gazette** ,1912 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1898 The Outlook ,1915 **Bookseller and the Stationery Trades' Journal** ,1915 Contagion and War John A. Vasquez,2018-11-22

John A Vasquez explains the processes that cause the spread of interstate war by looking at how contagion worked to bring countries into the First World War. Analysing all the key states that declared war, the book is comprised of three parts. Part I lays out six models of contagion: alliances, contiguity, territorial rivalry, opportunity, brute force, and economic dependence. Part II then analyses in detail the decision making of every state that entered the war from Austria-Hungary in 1914 to the United States and Greece in 1917. Part III has two chapters: the first considers the neutral countries and the second concludes the book with an overarching theoretical analysis including major lessons of the war and new hypotheses about contagion. This book will be of great interest to students and scholars of international relations, conflict studies, and international history, especially those interested in the spread of conflict or the First World War. **Military Communications** Christopher H.
