Military Power In A Free Society

Julia Schneider

Military Power In A Free Society:

Military Power in a Free Society Henry Effingham Eccles, 1979 **Military power in a free society** Henry E. Eccles, 1987 *Political Discipline in a Free Society* H. J. Blackham, 2013-04-15 This book traces the rise and fall of political philosophies since the 17th century The second part of the book shows how the general technique of cumulative learning from experience applies to social legislation and social services party politics to defence strategy and to the trends that follow the modern explosion of knowledge and capital The main argument is that social control is at its best a deliberate joint creation of and learning from social experience and in this sense political discipline although not the same as logical or scientific discipline is like them a submission to form not force The book gives a definite meaning to the idea of human progress and finds reason for a restoration of political hope and faith **The Free Society** Lansing Pollock, 2019-07-11 In the tradition of Milton Friedman's 1962 classic *Capitalism and Freedom* Lansing Pollock draws on moral political and economic theory to defend a libertarian vision of the good society Pollock argues that mutual consent derived from a fundamental Kantian moral equality is the ideal standard for judging relations between persons He contends that if the equal right of all persons to be free is taken seriously most of the coercion by government that many take for granted is immoral Pollock situates libertarian moral theory in an American historical context one compatible with the views of James Madison and Thomas Jefferson Pollock argues that when the Constitution is interpreted according to the political philosophy of the framers the modern welfare state is unconstitutional Pollock goes on to demonstrate how free market economies promote human well being whereas government regulation is often counterproductive In advocating a reduction in the size and scope of government Pollock includes applied policy analyses of poverty and health care among other topical issues He also offers an innovative solution to the problem of funding a limited government without violating individual rights The strength of *The Free Society* lies in its synthetic achievement In a book that is accessibly written and sure to appeal to scholar and lay reader alike Pollock provides a compelling conception of the good society one in which the libertarian vision includes moral social political and economic perspectives **War's Logic** Antulio J. Echevarria II, 2021-02-18 Antulio J Echevarria II reveals how successive generations of American strategic theorists have thought about war Analyzing the work of Alfred Thayer Mahan Billy Mitchell Bernard Brodie Robert Osgood Thomas Schelling Herman Kahn Henry Eccles Joseph Wiley Harry Summers John Boyd William Lind and John Warden he uncovers the logic that underpinned each theorist's critical concepts core principles and basic assumptions about the nature and character of war In so doing he identifies four paradigms of war's nature traditional modern political and materialist that have shaped American strategic thought If war's logic is political as Carl von Clausewitz said then so too is thinking about war **The Public Diplomacy Reader** J. Michael Waller, 2007 *The Public Diplomacy Reader* is a 500 page compendium of intellectual and practical tools for the cross cultural communicator Designed for students diplomats military officers intelligence professionals and other practitioners the Reader is meant to be

used as an instrument and guide in waging the war of ideas Naval War College Professor of Strategy Carnes Lord describes The Public Diplomacy Reader as a unique and outstanding compilation of materials on public diplomacy Former Voice of America Director Robert R Reilly says the book brings the wealth of experience and knowledge of an experienced public diplomacy practitioner to both students and anyone wishing to win the war of ideas The Public Diplomacy Reader is edited by J Michael Waller the Walter and Leonore Annenberg Professor of International Communication at The Institute of World Politics in Washington D C and author of the ground breaking 2007 book Fighting the War of Ideas like a Real War

The Police in a Free Society Todd Douglas, 2017-09-15 An unprecedented look at the evolution of American police from filling their intended role as peacekeepers and guardians of citizen rights to calling themselves and acting primarily as law enforcement officers As accusations of police misconduct and racial bias increasingly dominate the media The Police in a Free Society Safeguarding Rights While Enforcing the Law takes an unflinching look at the police the communities they serve and the politicians who direct them Author Todd Douglas a veteran state police commander exposes the occurrences of police misconduct and incompetence as well as incidences of charlatans who intentionally inflame racial tensions with the police for their own political or financial gain Readers will better understand what police officers must deal with on a daily basis grasp the role of lawmakers in keeping faith with the public and appreciate the tremendous challenges that police leaders face in attempting to reverse recent trends and shore up public confidence in police officers This is a rare glimpse into the often ugly reality of what happens on America's streets with insights gained from the perspective of the cop and suspect alike

Imperialism and Expansionism in American History Chris J. Magoc, David Bernstein, 2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America's imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation's involvement in the World Wars The work also offers extensive coverage of the Cold War and today's ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works

Champions of a Free Society Edward Wayne Younkins, 2008-01-01 This book is constructed around

great thinkers of the past and present who have been influential in developing the philosophy of freedom Its main purpose is to provide a survey and overview of the ideas of leading individual philosophers and economists of capitalism who have contributed to developing what might be called the classical liberal or libertarian worldview Champions of a Free Society endeavors to provide a guide to political and economic thinking about the desirability and construction of a free society that is intelligible to the educated layperson Edward Younkins provides an historical perspective of the pursuit of political and economic truth The goal of this book is to present the development of ideas in language that permits generally educated readers to understand and appreciate their significance The book s chronological approach considers the thinkers and their ideas as they have developed over the course of time There is much unfulfilled illuminative potential to be found in the ideas of the past and Younkins successfully integrates the ideas of past and current thinkers into a logical contemporary worldview

Jews in a Free Society Edward A. Goldman, 1978-12-31 This volume contains the lectures which the faculty of the Cincinnati School of Hebrew Union College Jewish Institute of Religion presented to the larger community during the College Centennial Year They are lectures by scholars moving out of the strict confines of their specialty and addressing a lay audience at large spreading Jewish information filtered through the channels of Jewish learning and representing a discussion of contemporary problems and concerns in the light of scholarly findings The convergence of the College Centennial and the national Bicentennial provided a unique occasion to assess the interrelationship between America and American Jewry Each lecturer therefore applied the insights of his own discipline to the situation of contemporary Jewish life in America elucidating both the challenges and the opportunities The lectures deal with the American Jewish Experience the history the sociology the artistic creativity and the ways in which the ancient legacy of religious ideas and literature can thrive in a free democracy The thirteen lectures published in this volume are by Professors Sheldon H Blank Herbert C Brichto Samuel Greengus Robert L Katz Jacob R Marcus Michael A Meyer Eugene Mihaly Jakob J Petuchowski Alvin J Reines Ellis Rivkin Samuel Sandmel Sylvan D Schwartzman and David B Weisberg Dr Alfred Gottschalk President of the College contributed an introductory essay on The Public Function of the Jewish Scholar

Islamic Foundations of a Free Society Mustafa Acar, Souad Adnane, Azhar Aslam, Hasan Yücel Başdemir, Kathya Berrada, Maszlee Malik, Youcef Maouchi, Hicham El Moussaoui, M. A. Muqtedar Khan, Bican Şahin, Atilla Yayla, 2016-09-12 Islam is growing rapidly both in its traditional homelands and in the West Some in the West view Islam with a mixture of fear and suspicion However it is also fair to say that there is widespread ignorance about Islam and especially about its relationship to political systems and the economy Is Islam compatible with a free society and a free economy Is the fact that many Muslim majority states do not have free economies or polities a result of an incompatibility between Islam and political and economic freedom or does it result from an unfortunate series of historical events What role has past colonialism played in encouraging Muslim extremism Exactly what does Islam have to say about freedom in economic political and religious life This book written by a range of Islamic

scholars sheds a great deal of light on these crucial questions It is an important book for those in the West who need to understand Islam better It is also important for those in Muslim countries who can influence the development of political systems and economic policy The publication of this book could not be more timely Professional Journal of the United States Army ,1963 **Parameters** ,1985 **Selected Readings and Documents on Postwar American Defense Policy** ,1985 **A Contribution to the Discussion of the Free Society** ,1961 The Evolution Of American Strategic Doctrine Steven L Rearden,2019-07-11 This book provides a comprehensive analysis of Paul H Nitze s influence on the making of U S national security policy as well as his recent involvement in arms control negotiations After World War II Nitze played a major role in drafting a policy paper for the National Security Council NSC 68 that profoundly affected U S strategic policy With the outbreak of the Korean War and increased Soviet expansionism in the 1950s Nitze and his colleagues argued forcefully for a strong program of American rearmament and an expanded peacetime defense force Dr Rearden brings the retrospective up to date with a discussion of Nitze s role in the SALT and Euromissile talks A Report to the National Security Council on United States Objectives and Programs for National Security National Security Council (U.S.),1950

International Politics Scott P. Handler,Robert T. Person,2020-12-23 Why do states do what they do Who are the relevant nonstate actors in international politics and why do they do what they do What causes conflict and cooperation in the international system These are some of the most basic questions that the discipline of International Relations IR seeks to answer they are also the questions that drive the objectives organization and content of this book *International Politics Classic and Contemporary Readings* Second Edition seeks to help students engage critically with some of the world s most challenging questions through the use of leading classic and contemporary scholarship in the field of international relations The first five chapters of the book explore the leading theoretical traditions in international relations while subsequent chapters explore the themes of international security international political economy and contemporary challenges in international relations This organization makes the book easy to use as standalone text or alongside core text Class tested on over 10 000 students in the last decade this text was built from the ground up to introduce students to the traditions and new foundations of international relations as well to the principles of intellectually rigorous thought **The Encyclopedia of the Cold War** Spencer C. Tucker,2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military historian Spencer Tucker ABC CLIO s *The Encyclopedia of the Cold War A Political Social and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union *The Encyclopedia of the Cold War*

provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time *Foreign Relations of the United States* United States. Department of State,1977
