Mines Of Behemoth:

The Mines of Behemoth Michael Shea,1997 Niff the Lean and his companion at arms Barnar Hammer Hand were often lucky Enroute to working Costard s sap mine very dangerous and sometimes nauseating work far below ground they were shipwrecked But this proved fortuitous when they met Bunt who had been seeking just such as they If they would work the sap mine but also bring back twenty gills of fluid he would make them exceedingly wealthy So it was settled They would suck the sap from the servants of the monstrous insectile queen and they would bring back some of the ichor that she alone exuded and they would be rich It seemed relatively easy They wouldn t have to go to hell at all for instance Of course the best laid plans sometimes do go a little astray

Walker County Coal Mines Iris Singleton McAvoy,2016-01-25 The discovery of black rocks that glow along Lost Creek transformed Walker County The coal brought scores of settlers who began to open wagon mines and ship coal in barges along the Warrior River the railroad soon followed which brought corporations and big mining camps Every town is littered

with stories from Dora's Uniontown to the union wars in Carbon Hill to the Gorgas mining experiment. It was only thanks to the coal mining industry that these dozens of towns came into existence. Today in a society relying less on coal and looking more to greener energy alternatives it's easy to forget the progress made due to coal. In Walker County Coal Mines readers will learn about the people and the industry that made Walker County special. **River of Lost Souls** Jonathan P.

Thompson, 2018-03-06 A vivid historical account Thompson shines in giving a sense of what it means to love a place that's been designated a sacrifice zone. PUBLISHERS WEEKLY Award winning investigative environmental journalist Jonathan P. Thompson digs into the science, politics and greed behind the 2015 Gold King Mine disaster and unearths a litany of impacts wrought by a century and a half of mining, energy development and fracking in southwestern Colorado. Amid these harsh realities Thompson explores how a new generation is setting out to make amends. JONATHAN THOMPSON is a native Westerner with deep roots in southwestern Colorado. He has been an environmental journalist focusing on the American West since he signed on as reporter and photographer at the Silverton Standard the Miner newspaper in 1996. He has worked and written for High Country News for over a decade serving as editor in chief from 2007 to 2010. Barney Sturgis, Joseph Zimmerman, 1902 **The Privilege of Servitude** Ricardo Antunes, 2025-09-25 The Privilege of Servitude presents a detailed and up to date portrait of today's working class. Antunes examines the main trends in new labour relations where precariousness, outsourcing and deregulation have become the rule rather than the exception. He offers an in depth analysis of the rise of the new service proletariat and contemporary forms of digital labour while also exploring changes in labour relations globally with a particular focus on Brazil's recent history from the period of redemocratisation to the Bolsonaro years. *Forged in Genocide* William Blakemore Lyon, 2024-07-22 Forged in Genocide traces the early history of colonial capitalism in Namibia with a central focus on migrants who came to be key to the economy during and as a result of the German genocide of the Herero and Nama 1904-1908. It posits that Namibia far from being a colonial backwater of the early 20th century became highly integrated into the labor flows and economies of West and Southern Africa and even for a time was one of the most sought after regions for African migrants because of relatively high wages and numerous opportunities resulting from the war's demographic devastation paired with an economic frenzy following the discovery of diamonds. In highlighting the life stories of migrants in Namibia from regions as diverse as the Kru coast of Liberia, the Eastern Cape of South Africa and the Ovambo polities of Northern Namibia, this work integrates micro history into larger African continental trends. Building off of written sources from migrants themselves and utilising the Namibian Worker Database constructed for this project, this book explores the lives of workers in early colonial Namibia in a
