Befriending Death Michael Vocino, Alfred G. Killilea, 2014-07-29 Its not easy to speak about death in our culture As children of revolution we think of our country as young energetic and future oriented Our ideals of progress and vigor seem contradicted by the concept of death But the silence about death in America is a lost opportunity for people to find insight and support in walking that lonesome valley In Befriending Death over 100 writers respond in one page each to one question In the face of death how do you find meaning

and fulfillment in life Penned from people from a variety of backgrounds the essays take death seriously and openly and discuss how the authors find meaning in life This chance for a rare sharing of views on a truly profound subject has attracted commentators who are deeply religious and those who are not religious noted authors and people who have never published a word people celebrated by the world and people ignored by the world As they are all equal in their mortality they are equal in striving for an authentic existence and an honest description of what for them constitutes fulfillment While each essay in *Befriending Death* is unique together they present a tapestry of courage struggle and insight At a time when we are often overwhelmed by the eagerness of people to provide their opinions on politics and sports here is a rare opportunity to hear people share their most profound views on life and death
