**Henry James Against the Aesthetic Movement** David Garrett Izzo, Daniel T. O'Hara, 2014-09-17 Writer Henry James 1843-1916 was born in America but preferred to live in Europe he finally became a British subject near the end of his life His status as a permanent outsider is responsible for the recurring themes in his writing dealing with European sophistication decadence compared to American lack of sophistication or innocence He is

respected in modern times for his psychological insight for being able to reveal his characters deepest motivations These 11 essays along with an introduction and an afterword examine James s work through the prism of the author s latest style Topics the contributing authors address include the Henry James revival of the 1930s three of James s male aesthetics women in his works literary forgery and parallels with the career and views of Margaret Oliphant Three essays delve into issues of representation in art and fiction then three more explore decadence identity and homosexuality Agamben's Political Ontology of Nudity in Literature and Art Frances Restuccia,2019-05-13 This volume develops the central though neglected Agambenian concept of nudity along with its crucial political implications The book discovers within The Use of Bodies a philosophical path to Agamben s ontology of nudity as it is subtended by his notion of the messianic a dual temporality of form in motion reflected in the image of a whirlpool that is autonomous although no drop of water belongs to it separately Drawn from Paul and Benjamin rather than Derrida Agamben s messianic is elaborated in this study through its embodiment in literature Woolf s To the Lighthouse James s The Aspern Papers Brodsky s Watermark and Mann s Death in Venice in response to Agamben s insistence on the wedding of poetry and philosophy In particular Coetzee s Disgrace gives poetic form to Agamben s focus on the dissolution of the human animal border the salvation of the unsavable and nudity all to illustrate Agamben s Open without a closedness This text shows how art serves as the house of philosophy also by taking up the nude in visual art making the case that in comprising chronos and kairos the two messianic components of Agamben s ontology of nudity art demonstrates the constitution of form of life for the viewer Emphasizing Agamben s privileged non unavailability nudity this book finally examines two major missed encounters with Heidegger and Lacan philosophers of the veil Veiling to Agamben correlates with the sovereignty bare life structure of the exception which his ontology of nudity is meant to deactivate as there is no such thing as a bare life *The Encyclopaedia Britannica: Mun to Pay* ,1911 **Talking Back to Shakespeare** Martha Tuck Rozett,1994 This book is about the way in which Shakespeare s plays have inspired readers to talk back and about some of the forms such talking back can assume It is also about the way different interpretive communities including students read their cultural political and moral assumptions into Shakespeare s plays appropriating and transforming elements of plot character and verbal text while challenging what they see as the ideological premises of the plays Texts that talk back to Shakespeare pose questions offer alternatives take liberties and fill in gaps Some of the transformations discussed in Talking Back to Shakespeare challenge deeply held assumptions such as for instance that Hamlet is a tragic hero and Shylock a stereotypical grasping usurer Others invent prior or subsequent lives for Shakespeare s characters women characters in particular so as to account for their actions and imagine their lives more fully than Shakespeare chooses to do Very few of these works have received much critical attention and some are virtually unknown or forgotten Rather than a comprehensive study of Shakespeare transformations Talking Back to Shakespeare is an innovative exploration of the kinship between the kind of talking back that occurs in the classroom and the kind to be found in texts

produced by writers who rewrite some of Shakespeare's most frequently taught and performed plays. Such revisions unsettle the cultural authority of the plays and expose the accumulated lore that surrounds them to probing, often irreverent scrutiny. Much of the talking back comes from marginalized readers: women like Lillie Wyman, author of *Gertrude of Denmark: An Interpretive Romance*, and other nineteenth-century women critics; or Jewish writers like Arnold Wesker, whose play *The Merchant* transforms the relationship between Antonio and Shylock. Some talking back comes from an international collection of oppositional voices of the 1960s, including Charles Marowitz, Aimé Césaire, Eugene Ionesco, and Joseph Papp. *Talking Back to Shakespeare* ranges from popular books like the recent Pulitzer Prize-winning novel *A Thousand Acres* by Jane Smiley to obscure, seldom-read ones like Percy MacKaye's ambitious four-play prequel *The Mystery of Hamlet, King of Denmark*. What these published texts share with student journal entries and transformations is the assumption familiar to postmodern readers that Shakespeare's plays are essentially unstable, culturally determined constructs capable of acquiring new meanings and new forms. By bringing together these two kinds of talking back, Rozett challenges the traditional separation between critical and pedagogical inquiry that has until recently dominated English studies.

[Union in Separation](#) Autori Vari, 2016-01-14T00:00:00+01:00 *Union in Separation* presents a series of case studies on diasporic groups in the late medieval and early modern Mediterranean and Black Sea regions. It explores how Armenian, Byzantine, Greek, Florentine, Genoese, Hospitaller, Jewish, Mamluk, and Venetian communities, characterized by diasporic identities and inserted into local contexts, navigated religious and socio-ethnic boundaries as well as other categories of difference. The volume draws on a wide range of historical and social scientific methods and offers new perspectives on the arbitration of difference in the wider eastern Mediterranean, from Tana to Cairo and Marseille to Isfahan, prior to the emergence of nation-states. It provides not only an analytical toolbox for historical diaspora studies but also reveals how, under the looming threat of crusade and within the daily routines of trade, diasporic groups and their hosts negotiated modes of coexistence that oscillated between cooperation and conflict, integration and rejection, union and separation. **The**

**Metals, Culture and Capitalism** Jack Goody, 2012-11-15 *Metals, Culture and Capitalism* is an ambitious, broad-ranging account of the search for metals in Europe and the Near East from the Bronze Age to the Industrial Revolution and the relationship between this and economic activity, socio-political structures, and the development of capitalism. Continuing his criticism of Eurocentric traditions, a theme explored in *The Theft of History* (2007) and *Renaissances* (2009), Jack Goody takes the Bronze Age as a starting point for a balanced account of the East and the West, seeking commonalities that recent histories overlook. Considering the role of metals in relation to early cultures, the European Renaissance, and modernity in general, Goody explores how the search for metals entailed other forms of knowledge as well.
