Ones Who Got Away Women Who Left Abusive Partners:

Leaving Abusive Partners Catherine Kirkwood, 1993-08-23 This moving book reshapes our understanding of the nature of woman abuse and makes a major contribution to a key issue for feminist campaigning and theory The past 25 years of research on battered women has focused on the psychological sociological and political conditions which contribute to violence and on women s reasons for staying with violent and abusive partners The author goes beyond the discourse of victims and survivors to offer new insights into the very specific and multifaceted nature of the abuses women experience emotional as well as physical Drawing on firsthand accounts Kirkwood sheds new light both on the dynamics of abuse which afford abusers control over women and the resources and knowledge women draw upon to re empower themselves Examining first the nature of abuse and then the issues confronted by a woman after she has left an abusive relationship Kirkwood finds that women s experiences of society after leaving abusive partners are highly interrelated She develops the concept of a web to explain how the different elements of abuse connect to make up the experiences of abused women

Feminist Foremothers in Women's Studies, Psychology, and Mental Health Ellen Cole,Esther D Rothblum,Phyllis Chesler,2014-05-12 Feminist Foremothers in Women s Studies Psychology and Mental Health is by and about the more recent wave of feminist foremothers those who were awakened in the 1960s and 70s

to the realization that something was terribly wrong These are the women who created the fields of feminist therapy feminist psychology and women s mental health as they exist today The 48 women share their life stories in the hope that they will inspire and encourage readers to take their own risks and their own journeys to the outer edges of human possibility Authors write about what led up to their achievements what their accomplishments were and how their lives were consequently changed They describe their personal stages of development in becoming feminists from unawareness to activism to action Some women focus on the painful barriers to success fame and social change others focus on the surprise they experience at how well they and the women s movement have done Some well known feminist foremothers featured include Phyllis Chesler Gloria Steinem Kate Millett Starhawk Judy Chicago Zsuzsanna Emese Budapest Andrea Dworkin Jean Baker Miller Carol Gilligan In *Feminist Foremothers in Women s Studies Psychology and Mental Health* many of the women see in hindsight how prior projects and ideas and even dreams were the forerunners to their most important work They note the importance of sisterhood and the presence of other women and the loneliness and isolation experienced when they don t exist They note the validation they have received from grassroots feminists in contrast to disbelief from professionals Although these women have been and continue to be looked up to as foremothers they realize how little recognition they ve been given from society at large and how much better off their male counterparts are Some foremothers write about the feeling of being different not meshing with the culture of the time and about challenging the system as an outsider not an insider These are women who had few mentors who had to forge their own way hit the ground running Their stories will challenge readers to press on to continue the work these foremothers so courageously started Throughout the pages of *Feminist Foremothers in Women s Studies Psychology and Mental Health* runs a sense of excitement and vibrancy of lives lived well of being there during the early years of the women s movement of making sacrifices of taking risks and living to see enormous changes result Throughout these pages too sounds a call not to take these changes for granted but to recognize that feminists rather than arguing over picayune issues or splitting politically correct hairs are battling for the very soul of the world *Marriage and Violence* Frances Elizabeth Dolan,2008 Marriage is often described as a melding of two people into one But what or who must be lost fragmented or buried in that process Dolan reveals the contradiction that lies at the very heart of modern marriage We have inherited from early modern England a model of marriage she contends so flawed that its logical consequence is conflict *Broomstick* ,1993 *Voices of the Survivors* Patricia Weiser Eastel,1994 Powerful and moving stories from survivors of sexual assault *Under the Safety Net* Philip W. Brickner,1990 A major study drawing on the work of nineteen programs across the nation devoted to the care of the homeless Describes the dimensions of the problem and discusses remedies and strategies for its solution *Lost from View* Nina Biehal,Fiona Mitchell,Jim Wade,2003 Thousands of people are reported missing each year yet very little is known about who they are why they disappear and what happens to them Although the predicament of runaways and other missing children has a higher profile the issue of missing

adults has been neglected in research and policy Drawing on almost 2000 missing persons cases the report explores vbTab who goes missing vbTab why people choose to go missing and how people can become missing in other circumstances vbTab the experiences of missing people while they are away and the risks that they may encounter vbTab how missing episodes are resolved vbTab how further developments in policy and practice may assist missing people and their families This highly topical report demonstrates that the social problems underpinning the missing issue cut across many areas of social policy This book will therefore be essential reading for policy makers practitioners and academics in the fields of criminal justice child and family welfare health and social work

Lesbian Choices Claudia Card,1995 In this compellingly honest collection of her writings renowned feminist philosopher Claudia Card courageously explores the complex ethical and political questions lesbians face considering these issues in regard to their identities and relationships both within and outside of lesbian communities Lesbian Choices is written with a grace and clarity that readers inside and outside academia will appreciate Claudia Card s lucid presentation of complicated philosophical and ethical concepts offers a better understanding of the explosive issue of gender construction in our society Lesbian Choices is recommended reading for anyone interested in lesbianism feminism ethics and philosophy

Men Who Beat the Men Who Love Them Patrick Letellier,David Island,2013-12-02 Domestic violence in gay male relationships is the third largest health problem for gay men in America today Men Who Beat the Men Who Love Them breaks the silence surrounding gay male domestic violence and exposes this hidden yet prevalent and destructive problem The authors paint a vivid picture of gay men s domestic violence bringing its brutality to life by including personal narratives written by one of the authors by clearly defining what it is and what it is not through lists of violent acts and criminal code categories and by thoroughly examining and analyzing the criminal mental health medical political and interpersonal issues involved The authors boldly depart from the battered women s literature by asserting that batterers have a diagnosable mental disorder that battering is not gender based and that much further criminalization of domestic violence is necessary Striving for victim advocacy the book underscores the idea that gay men s domestic violence is totally unacceptable and is caused solely by individual abusive gay men who choose to batter The book builds on and departs from what is known about domestic violence with the authors challenging several fundamental premises in the literature unabashedly identifying battering as a mental disorder The authors explain that victims cannot stop their battering partners from battering and virtually all batterers choose to harm their partners in a premeditated fashion The authors provide practical steps and suggestions for victims who want to leave and stay away from their violent partners and for friends who want to help battered gay men Chapters describe the scope of the problem and refute myths and misconceptions There are several detailed theory chapters in which the authors explain why gay men s domestic violence occurs who the batterers are who the victims are at different stages of victimization and how domestic violence can be stopped A visionary wide ranging governmental and private plan of action is introduced including lists of
