Pearl Buck A Woman In Conflict:

Pearl Buck, a Woman in Conflict Nora Stirling,1983 *Pearl Buck, a Woman in Conflict* Nora B. Stirling,1983 This biography of the only American woman to win both Nobel and Pulitzer prizes for literature a humanitarian who left her fortune to her foundation for the care of illegitimate children shows her as needing order in a busy disorderly life and having a man at the center of each stage of her life not all of whom were worthy companions *American Women during World War II* Doris Weatherford,2009-10-16 *American Women during World War II* documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion *American Women during World War II* provides a handy one volume collection of information and images suitable for any public or professional library

Encyclopedia of Women and American Politics, Third Edition Lynne Ford,2021-07-01 *Encyclopedia of Women and American Politics Third Edition* contains all the material a reader needs to understand the role of women throughout America's political history This informative A to Z volume contains hundreds of entries covering the people events and terms involved in the history of women and politics Entries include Abortion Alexandria Ocasio Cortez The birth control movement Black Lives Matter Hillary Rodham Clinton Deb Haaland Domestic violence Equal Rights Amendment ERA Glass ceiling League of Women Voters MeToo movement Michelle Obama Sonia Sotomayor Elizabeth Warren and many more *American Women in Mission* Dana Lee Robert,1996 The stereotype of the woman missionary has ranged from that of the longsuffering wife characterized by the epitaph Died given over to hospitality to that of the spinster in her unstylish dress and wire rimmed glasses alone somewhere for thirty years teaching heathen children Like all caricatures those of the exhausted wife and frustrated old maid carry some truth the underlying message of the stereotypes is that missionary women were perceived as marginal to the central tasks of mission Rather than being remembered for preaching the gospel the quintessential male task missionary women were noted for meeting human needs and helping others sacrificing themselves without plan or reason all for the sake of bringing the world to Jesus Christ Historical evidence however gives lie to the truism that women missionaries were and are doers but not thinkers reactive secondary figures rather than proactive primary ones The first American women to serve as foreign missionaries in 1812 were among the best educated women of their time Although barred from obtaining the college education or ministerial credentials of their husbands the early missionary wives had read their Jonathan Edwards and Samuel Hopkins Not only did they go abroad with particular theologies to share but their identities as women caused them to develop gender based mission theories Early nineteenth century women seldom wrote theologies of mission

but they wrote letters and kept journals that reveal a thought world and set of assumptions about women's roles in the missionary task. The activities of missionary wives were not random; they were part of a mission strategy that gave women a particular role in the advancement of the reign of God. By moving from mission field to mission field in chronological order of missionary presence, Robert charts missiological developments as they took place in dialogue with the urgent context of the day. Each case study marks the beginning of the mission theory. Baptist women in Burma, for example, are only considered in their first decades there and are not traced into the present. Robert believes that at this early stage of research into women's mission theory, integrity and analysis lies more in a succession of contextualized case studies than in gross generalizations.

Troubling American Women Stacilee Ford, 2011-03-01 American women have lived in Hong Kong and in neighboring Macao for nearly two centuries. Many were changed by their encounter with Chinese life and British colonialism. Their openness to new experiences set them apart while their pedagogical impulse gave them a reputation for outspokenness that troubled others. Drawing on memoirs, diaries, newspapers, films, and other texts, Stacilee Ford tells the stories of several American women and explores how, through dramatically changing times, they communicated their notions of national identity and gender. *Troubling American Women* is a lively and provocative study of cross-cultural encounters between the Hong Kong and the US and use of stereotypes of American womanhood in Hong Kong popular culture. Stacilee Ford has lived in Hong Kong for 18 years. She teaches history and American studies at the University of Hong Kong. [The American Women's Rights Movement](#) Paul D. Buchanan, 2009 More than 140 entries in this book depict events which have had lasting national significance in opening opportunities in the struggle for equal civil rights and opportunities for women. The impact of many of the included events was initially felt on a local level but in time it created repercussions that spread across the country. These stories show women assuming roles of providers and heads of households and their leadership exerted in and outside the home would often manifest in the community at large and in turn in the nation and in the world. The book is divided into four parts: One, The Seeds Are Planted; Two, 19th Century The Movement Takes Root; Three, 20th Century Reaching for the Sunlight; Four, 21st Century Coming into Full Bloom. The book begins with Anne Hutchinson and Mary Dyer and ends with Condoleezza Rice. **American Women Writers, 1900-1945** Laurie Champion, 2000-09-30 Women writers have been traditionally excluded from literary canons and not until recently have scholars begun to rediscover or discover for the first time neglected women writers and their works. This reference includes alphabetically arranged entries on 58 American women authors who wrote between 1900 and 1945. Each entry is written by an expert contributor and discusses a particular author's biography, her major works, and themes, and the critical response to her writings. The entries close with extensive primary and secondary bibliographies, and the volume concludes with a list of works for further reading. The period surveyed by this reference is rich and diverse. Modernism and the Harlem Renaissance, two major artistic movements, occurred between 1900 and 1945, and the entries included here demonstrate the significant contributions women made to these

movements The volume as a whole strives to reflect the diversity of American culture and includes entries for African American Native American Mexican American and Chinese American women It includes well known writers such as Willa Cather and Eudora Welty along with more neglected ones such as Anita Scott Coleman and Sui Sin Far

Interracial Lovers in Revolutionary China D. E. Mungello, 2023-07-14 In the twentieth century China underwent a monumental dynastic change and was transformed from an outmoded monarchy into a modern communist state This century of revolutionary change was marked by political upheaval and social chaos It was a period in which Chinese began to go abroad to study and conduct business while foreigners came to China for economic opportunity and adventure In the process Chinese and foreigners began to meet and form romantic relationships These love affairs fengliu yunshi are notable because they coincided with the last phase of Western imperialism including its lingering racial prejudices and even laws against interracial sexual relationships Conversely in China there were periodic outbreaks of hostility and violence against foreigners This book explores the interracial relationships of twenty two people who transcended these obstacles to cross color lines and fall in love

Portraits of Famous American Women Robert Henkes, 1997-01-01 The portrait is one of the most pure collaborative efforts in the art world The artist is the creator but she or he is wholly dependent on the sitter for inspiration and stimulus When the subject is famous the artist must often compromise true expression for the vanity of the person being painted Though that would seemingly make the portrait less appealing artistically in truth the collaborative nature of the portrait often makes it artistically unique a blending of the artist s style with the desires of the sitter This work takes a fresh look at the portraits of 13 American women Marian Anderson Clara Barton Mary McLeod Bethune Pearl Buck Mary Cassatt Isadora Duncan Marianne Moore Georgia O Keeffe Eleanor Roosevelt Gertrude Stein Harriet Beecher Stowe Harriet Tubman and Martha Washington and the artists who created them In examining the work of such artists as Abraham Walkowitz John Graham Betsy Graves Reyneau Michael Alexander Werboff and Brenda Putnam one comes to see the unique combination of the personality of the sitter and the style of the artist
