What is real estate law? Real estate law is a branch of private law that deals as the name suggests with the study and dealing with legal and legal relationships involving the possession, purchase, sale, donation, succession, exchange, and ownership of real estate, including real estate development. Thus, it is an area of law that, although it has a well-defined object of study, works with different fields of law, such as contractual, consumer, family, civil law, among others. This is an area that will always be socially relevant since the circulation of properties between different people is inevitable in the society in which we live. Thus, real estate law is an area that allows legal professionals to work at different levels, presenting itself as a very fruitful and interesting branch of law for lawyers seeking to specialize in legal relationships involving real estate.
