Blackbird James Hamilton-Paterson, 2017-09-05 The fascinating story of the spy plane SR 71 Blackbird the fastest manned aircraft in the history of aviation The SR 71 Blackbird the famed spy jet was deliberately designed to be the world s fastest and highest flying aircraft and its success has never been approached since It was conceived in the late 1950s by Lockheed Martin s highly secret Skunk Works team under one of the most possibly the most brilliant aero designers of all time Clarence Kelly Johnson Once fully developed in 1964 the Blackbird represented the apogee of jet powered flight It could fly at well over three times the speed of sound above 85 000 feet and had an unrefueled range of 3 200 nautical miles It flew with great success until 1999 Despite extensive use over Vietnam and later battlefields not one was ever shot down unlike the U2 in the Gary Powers incident The Blackbird s capabilities seem unlikely ever to be exceeded It was retired because its function can be performed by satellites and in today s steady trend toward unmanned military aircraft it is improbable that another jet aircraft of this speed and caliber will ever again be conceived

Wynne,2017-02-28 A unique account of British threat responses to potential German conflict Strongly recommended Firetrench In the immediate aftermath of the First World War it was expected that international disputes could be settled by arbitration through the creation of the League of Nations Consequently the British government concluded that there would not be another war in the foreseeable future and therefore the country s armed forces could be correspondingly scaled back The rise of Nazism in Germany in the 1930s however prompted politicians and military leaders to contemplate the frightening prospect of another global conflict The Chiefs of Staff of the three services were instructed to bring Britain s armed forces up to a standard where they could resist a revitalized and powerful aggressor and to put in place plans for the defense of the country When that war became a reality the Chiefs of Staff then had to devise schemes to prevent a German invasion and as the war progressed to counter the bombers of the Luftwaffe and the flying bombs and rockets that followed Reproduced here in its entirety is an official account drawn up by Capt G C Wynne of the Historical Section Cabinet Office in 1948 Arranged in four parts corresponding to the four different threats that developed with the changing situations of the war it details the various plans made for home defense between 1939 and 1945 A detailed study of the preparations and actual measures taken to prevent invasion during the Second World War Britain at War

Playback and Studies of Animal Communication Peter K. McGregor,2013-11-11 Playback is the technique of rebroadcasting natural or synthetic signals to animals and observing their response The ability to present a putative signal in isolation without the potential confounding effects of other activities of the signaller is the main reason for the depth and range of our knowledge of communication systems To date playback of sound signals has predominated but playback of electric signals and even video playback of visual signals suggests that playback will become just as prevalent in studies of communication in other sensory modalities This book is one of the outcomes of a workshop on playback held at Thombridge Hall in the Peak District National Park England during August 1991 There were two reasons for organising the workshop First the considerable and lively debate in the literature about the design and analysis of playback experiments the pseudoreplication debate was in danger of generating more heat than light A workshop forum seemed the obvious place to clarify and if possible resolve the debate Second with the number of new playback and analysis techniques increasing rapidly it seemed an opportune moment to discuss these techniques and to review some rapidly developing areas of interest in sound communication The Secret Genesis of Area 51 TD Barnes,2015-04-13 The man who has done more than anyone to lift the veil of secrecy about what s unfolded out there in the desert reveals the origins of Area 51 KLAS 8 News Now In 1955 the Central Intelligence Agency established a clandestine base of operations in the Nevada desert with a mission to protect the
