**The Sicilian Mafia** Diego Gambetta, 1996-02 Blood ceremonies obscure symbols elaborate codes brutal executions the arcane remnants of a defunct culture The Mafia this book suggests is not nearly as bizarre as all that not nearly as remote as we might think In fact as Diego Gambetta's analysis unfolds the Mafia begins to resemble any other business In a society where trust is in short supply this business sells protection a guarantee of safe conduct for commercial and social transactions It grudgingly shares the market with other concerns like itself of which it is merely the most successful The author develops his elegant economic theory with ample evidence much of it based on the remarkable work done by Judge Giovanni Falcone and his colleagues in Palermo and Agrigento in the 1980s Drawing on the confessions of eight Mafiosi and the trials their revelations triggered Gambetta is able to explain all manner of peculiar Mafia marketing strategies that have been endlessly misinterpreted in the past He makes illuminating and unexpected comparisons between the business of protection and ordinary industries such as automotive insurance and advertising And he teases out the subtle distinctions between protection and extortion in which the protector himself poses a threat This new approach reshapes traditional interpretations of the Mafia its origins functions and social consequences Applying informal economic analysis Gambetta shows how such a recognized evil can perform a real service and how such a recognizable service can inflict great harm on a society

**Medal of Honor** United States. Congress. House. Committee on Veterans' Affairs, 1940 Record of Medals of Honor Issued to the Officers and Enlisted Men of the United States Navy, Marine Corps and Coast Guard United States. Bureau of Naval Personnel, United States. Navy Department. Bureau of Navigation, 1924 **Record of Medals of Honor Issued to the Officers and Enlisted Men of the United States Navy, Marine Corps, and Coast Guard, 1862-1917**, 1917 **Honor** Frank Henderson Stewart, 1994-12-15 What is honor Is it the same as reputation Or is it rather a sentiment Is it a character trait like integrity Or is it simply a concept too vague or incoherent to be fully analyzed In the first sustained comparative analysis of this elusive notion Frank Stewart writes that none of these ideas is correct Drawing on information about Western ideas of honor from sources as diverse as medieval Arthurian romances Spanish dramas of the sixteenth and seventeenth centuries and the writings of German jurists of the nineteenth and twentieth centuries and comparing the European ideas with the ideas of a non Western society the Bedouin Stewart argues that honor must be understood as a right basically a right to respect He shows that by understanding honor this way we can resolve some of the paradoxes that have long troubled scholars and can make sense of certain institutions for instance the medieval European pledge of honor that have not hitherto been properly understood Offering a powerful new way to understand this complex notion Honor has important implications not only for the social sciences but also for the whole history of European sensibility
