The Nature of Radioactive Fallout and Its Effects on Man United States. Congress. Joint Committee on Atomic Energy, 1958 Eugène Dubois and the Ape-Man from Java

L.T. Theunissen, 2012-12-06 Although the name Pithecanthropus is now seldom used there are few who study the origin of our species who will fail to recognise the historical place of the usage and its association with Eugene Dubois During the last thirty or forty years Australopithecus and its African context has tended to draw attention from the early work on our origins in Java It is now increasingly common to hear the term pithecanthrope used only to indicate the Asian or Far Eastern examples of Homo erectus which although probably derived from African ancestry have some features that in the opinion of some experts may justify their being considered distinctive This discussion is not within the pages that follow which deal extensively with the work of Eugene Dubois He was an extraordinary man who did as much as any person since to put the great antiquity of our ancestors firmly in the public domain Dubois became involved with the study of human origins from a medical and anatomical background as have many since The jealousies and professional pressures that we think of as a phenomenon of the post war years were clearly a major factor in deciding the future of his career **Man; a Study** Albert Edwin Clattenburg, 1914

The Son of Man in Myth and History Frederick Houk Borsch, 2007-03-01 Borsch has not answered all the questions of course Who can But his view of the Man tradition makes more sense to me than for example Perrin's rather cavalier dismissal of the evidence and it not only enlightens but also enlivens the discussion As against the extreme skeptics Borsch is also convincing to me in arguing the case for a large measure of authenticity in the Son of man tradition in the Gospels If the proof of the pudding is in the eating the book constantly calls me back to its pages for insight regarding the problem both in its historical dimension and in its bearing upon the meaning of Jesus of Nazareth for faith today Theology The author is well aware of the difficulties involved in entering a field wherein so much investigation has been done And of this with the positive and negative conclusions he gives an excellent survey crisp and critical The lines opened up will engage the attention of a new and more positive chapter in the form critical argument London Quarterly and Holborn Review Frederick H Borsch is the retired Bishop of the Episcopal Diocese of Los Angeles and Professor of New Testament and Chair of Anglican Studies at The Lutheran Theological
