Representing Poverty and Precarity in a Postcolonial World, 2022-02-22 Poverty and precarity are among the most pressing social issues of today and have become a significant thematic focus and analytical tool in the humanities in the last two decades. This volume brings together an international group of scholars who investigate conceptualisations of poverty and precarity from the perspective of literary and cultural studies as well as linguistics. Analysing literature, visual arts and news media from across the postcolonial world, they aim at exploring the frameworks of representation that impact affective and ethical responses to disenfranchised groups and precarious subjects. Case studies focus on intersections between precarity and race, class and gender; institutional frameworks of publishing; environmental precarity and the framing of refugees and migrants as precarious subjects. Contributors: Clelia Clini, Geoffrey V. Davis, Dorothee Klein, Sue Kossew, Maryam Mirza, Anna Lienen, Julia Hoydis, Susan Nalugwa Kiguli, Sule Emmanuel Egya, Malcolm Sen, Jan Rupp, J. U. Jacobs, Julian Wacker, Andreas Musolff, Janet M. Wilson.

Multispecies Modernity Sundhya Walther, 2021-06-01 *Multispecies Modernity* *Disorderly Life in Postcolonial Literature* considers relationships between animals and humans in the iconic spaces of postcolonial India: the wild, the body, the home and the city. Navigating fiction, journalism, life writing, film and visual art, this book argues that a uniquely Indian way of being modern is born in these spaces of disorderly multispecies living. The zones of proximity traversed in *Multispecies Modernity* link animal-human relations to a politics of postcolonial identity by transgressing the logics of modernity imposed on the postcolonial nation. *Disorderly multispecies living* is a resistance to the hygiene of modernity and a powerful alliance between human and nonhuman subalterns. In bringing an animal studies perspective to postcolonial writing and art, this book proposes an ethics of representation and an ethics of reading that have wider implications for the study of relationships between human and nonhuman animals in literature and in life.
