saint Augustinus

Man Is Gods:

Man and His Gods Homer William Smith, 1952 **Man's Measure** Laszlo Versenyi, 1974-01-01 *The Gods of Man: Gods of Nature - God of War* Gary R. Varner, 2007-10-14 Today the majority of humankind worships a single God Although this God is said to be all loving and wanting peace for his worshippers there is very little peace among the three religions based on common theology Judaism Christianity and Islam all foster hatred for one another causing millions of deaths and untold suffering for hundreds of years This book explores the mythic historical and archaeological record to illustrate the history of these conflicts The Gods of Man also looks at how monotheism eventually dominated and destroyed the ancient and peaceful goddess traditions that had existed for thousands of years before Is the God of today simply used to enforce government edicts justify war and to control society Gary R Varner has written several articles and books on ancient religions folklore and mythology He is a member of the American Folklore Society and the Foundation for Mythological Studies

Man's Quest for Political Knowledge William Anderson, 1964-01-01 *Man's Quest for Political Knowledge* was first published in 1964 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Considering the importance of political science as an academic subject in our time it is surprising that more attention has not been given until now to the history of political study and teaching As Professor Anderson's book makes clear an understanding of this history throws light on questions significantly related to basic problems of contemporary political science By placing in their historical context pertinent developments in ancient times Professor Anderson shows how the study and teaching of politics may flourish under certain conditions and falter or fail under others Throughout the book he demonstrates the truth of what Aristotle said about the study of politics In this subject as in others the best method of investigation is to study things in the process of development from the beginning In early chapters the author examines three literate societies of the ancient Near East Mesopotamia Egypt and Israel He then discusses in the major section of the book the accomplishments of the Greeks who with their many self governing city states and their secular attitude toward politics opened up the study of politics in a realistic way Here he gives Aristotle the most prominent role and finds Plato less important than most scholars might expect Finally he traces the decline of the political study and teaching in the Hellenistic period and in the time of the Roman Empire The volume will be of particular interest not only to political scientists but to historians philosophers and classical scholars

the world of man, 1890 *The Outline of Man's Knowledge* Clement Wood, 1927 *Arianism : Who is Jesus* Prof.M.M. Ninan, 2018-09-12 Early in the history of mankind when Jesus was alive he communicated as man In the end soon after the resurrection and the post resurrection period period showed himself to be God Now those who proclaimed Jesus as God was forced to declare God as Trinity This created a problem between Monotheism and Polytheism Is Christianity Monotheistic or Polytheistic This was the struggle in the early Christian period Arius was one who came up with one answer as many others
