Cities of the Mind Lloyd Rodwin, Robert M. Hollister, 2013-06-29 Curious about the images of the city that have been evolving in the different social sciences we did what academics often do in such a situation we set up a seminar on Images of the City in the Social Sciences From the start we counted on the help of specialists in other fields to pursue their interests Of the persons who agreed to participate all but two came from the United States and

their analyses in the main reflect the experience of Western countries and the United States In our formal instructions to our collaborators we took for granted that a variety of images of the city could be found or inferred in their fields of expertise We asked them to identify these images and their functions to explain how and why they have changed over time and to relate these images to the distinct intellectual traditions and techniques analytical or otherwise in their respective fields The definition of image was left to the judgment of the participants

Braddock, 2009-03-31 Thomas Eakins and the Cultures of Modernity is the first book to situate Philadelphia's greatest realist painter in relation to the historical discourse of cultural difference In this study Alan C Braddock reveals that modern anthropological perceptions of culture which many art historians attribute to Eakins did not become current until after the artist's death in 1916 Braddock finds in the work of Thomas Eakins a lifelong engagement with aesthetic and social currents that extended well beyond his native city of Philadelphia indicating the persistence of a worldly sensibility long after he had concluded his formative studies in Europe during the 1860s Braddock shows how Eakins developed a localized cosmopolitanism all his own based in Philadelphia but tapped into a global field of visual production Jacket

**Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States. Congress. Senate. Committee on the Judiciary, 1955 **Blackness, Symbolism, and American Modernism** Lori Nel Johnson, 2025-04-29 In this book Lori Nel Johnson examines the work of Henry Ossawa Tanner 1859 1937 Meta Warrick Fuller 1877 1968 and F Holland Day 1864 1933 in relation to the development of modernism during the turn of the century and the official narratives surrounding this

movement While Tanner and Fuller have been consistently linked in the history of American Art the Pictorialist photographer and publisher Day has rarely if ever been discussed with these two artists despite the fact that all three were rough contemporaries and affiliated with Symbolism The book compares the historical and social conditions that determined the lives and careers of these three artists which curtailed their ambitions because of the intersections of class race gender or sexuality By examining each artist s respective proximity to language on the basis of class race gender and sexuality this study avoids categorizing artists solely on the basis of difference and thus offers a more fulsome and radical reading of the development of modernism in the United States The book will be of interest to scholars of art history design history history of photography American studies and African American studies     Prologue ,1973     **Nuclear Power and the Environment** U.S. Atomic Energy Commission,1969     **Proceedings, Nuclear Power and the Environment, University of Vermont, Burlington, Sept. 11, 1969** U.S. Atomic Energy Commission,1970     Report United States.
