Hardy, 2011-11-11 Six people are gathered for a therapy group deep in the countryside Six people who share a unique and terrible trauma each one is the last survivor of an apocalypse Each of them was rescued from a parallel universe where humanity was wiped out They've survived nuclear war machine uprisings mass suicide the reanimated dead and more They've been given sanctuary on the homeworld of the Interversal Union and placed with Dr Asha Singh a therapist who works with survivors of doomed worlds To help them she'll have to figure out what they've been through what they've suffered and the secrets they're hiding She can't cure them of being the last man or woman on Earth But she can help them learn to live with the horrors they survived This one won't leave you with the warm and fuzzies but it will leave you thinking and for me that's the mark of great science fiction Sift Book Reviews *The Kingdom of the Son of Man on Earth* Maria Cordova, 2009-09 The prophet who has a dream let him tell a dream and he who has My Word let him speak My Word faithfully Jeremiah 23:28 The Word of the LORD God came to me in a dream the first time in 1982 and I was told to proclaim the coming of the Son of Man for seventeen years My full testimony biography and the lessons God had taught me throughout those years are written in the book *The Witness to the Coming of Jesus Christ* published in 1999 The LORD God spoke to me a second time in a dream and said TELL MY COVENANT PEOPLE THEY WILL NOT BE HARMED The third time the Messiah had come He awakened me from a deep sleep and released the Seventh Seal These three prophetic events were given to make known to the church and the world our current position in Biblical Prophecy The LORD God has also led me through a series of events which revealed that the invisible Kingdom of the Son of Man had come Although it is concealed the Messiah revealed it two thousand years ago through many parables in the Holy Bible Now I have been called to reveal its existence so that others may prepare to enter into it Further studies will leave no doubt that this kingdom is on earth now You will see and understand The unseen Kingdom of the Son of Man The Kingdom through the faith of a child What will be

required to enter His Kingdom How the dead in our Messiah will enter in first When the faithful saints will be transferred into it The warnings and consequences of being left outside What will happen to the world after the Kingdom doors close

*A Man From Planet Earth* Giancarlo Genta, 2015-08-26 Sometime in the not too distant future unbeknownst to Earth the Galaxy is home to a number of spacefaring societies This confederation enforces a strict protocol forbidding any contact with civilizations that have not yet achieved both a substantial spacefaring capability and sufficient maturity to control the technology explosion before triggering their own extinction While this policy is intended to only bring in peaceful new members matters change entirely when the confederation is threatened by some unknown entity is the menace real or imagined The confederation decides to break with the rules and sends a delegate to Earth to hire one of the supposedly belligerent Earthlings to investigate and to revive the confederation's long unused starfleet The Earthman agrees but demands a high price should he succeed the confederation will have to accept Earth as a new member As the threat becomes ever more acute the question soon becomes which mission will prove harder saving the confederation or convincing it to accept the deal The extensive appendix written in non technical language reviews the scientific and technological topics underlying the plot ranging from the Fermi paradox space travel and artificial collective intelligence to theories on possible universal convergences in technological and biological development

**The Man Who Flattened the Earth** Mary Terrall, 2006-05-05 Self styled adventurer literary wit philosopher and statesman of science Pierre Louis Moreau de Maupertuis 1698 1759 stood at the center of Enlightenment science and culture Offering an elegant and accessible portrait of this remarkable man Mary Terrall uses the story of Maupertuis's life self fashioning and scientific works to explore what it meant to do science and to be a man of science in eighteenth century Europe Beginning his scientific career as a mathematician in Paris Maupertuis entered the public eye with a much discussed expedition to Lapland which confirmed Newton's calculation that the earth was flattened at the poles He also made significant and often intentionally controversial contributions to physics life science navigation astronomy and metaphysics Called to Berlin by Frederick the Great Maupertuis moved to Prussia to preside over the Academy of Sciences there Equally at home in salons caf's scientific academies and royal courts Maupertuis used his social connections and his printed works to enhance a carefully constructed reputation as both a man of letters and a man of science His social and institutional affiliations in turn affected how Maupertuis formulated his ideas how he presented them to his contemporaries and the reactions they provoked Terrall not only illuminates the life and work of a colorful and important Enlightenment figure but also uses his story to delve into many wider issues including the development of scientific institutions the impact of print culture on science and the interactions of science and government Smart and highly readable Maupertuis will appeal to anyone interested in eighteenth century science and culture Terrall's work is scholarship in the best sense Her explanations of arcane 18th century French physics mathematics astronomy and biology are among the most lucid available in any language Virginia Dawson American Historical
