Man On The Land:

Populating No Man's Land János Mátyás Kovács, 2018-09-15 This edited volume opening the new series Revisiting Communism Collectivist Economic Thought in Historical Perspective focuses on the concepts of ownership the cornerstone of political economy in Soviet type societies The authors main objective is to contribute to the still unwritten chapter on collectivism in the history books of modern economic thought They trace the lengthy evolution of economic ideas of property reform under communism leading from the doctrine of blanket nationalization to projects of moderate privatization in eight countries of Eastern Europe and China The comparative analysis sheds light upon the tireless attempts of reform minded economists in communist countries to populate the no man s land of social property with quasi private economic actors such as bodies of workers self management and managers of state owned companies For a long time these were expected to crowd out the communist nomenklatura from its actual ownership position without challenging the primacy of collective property rights The fact that even the most radical reformers came to the conclusion that such surrogate owners would not be able to break the power of the ruling elite only on the eve of the 1989 revolutions demonstrates the immense strength of collectivist ideas The authors coin the term trap of collectivism to warn those demanding nationalization or other forms of non private ownership today it is rather easy even with the best intentions to walk into this trap but it may take long decades to break out from it

No Man's Land Elizabeth D. Samet, 2014-11-04 As the post 9 11 wars wind down a literature professor at West Point explores what it means for soldiers and our country to be caught between war and peace In her critically acclaimed award winning book *Soldier's Heart* Elizabeth D Samet grappled with the experience of teaching literature at the United States Military Academy at West Point Now with *No Man's Land* Samet contends that we are entering a new moment a no man s land between war and peace Major military deployments are winding down but soldiers are wrestling with the aftermath of war and the trials of returning home while also facing the prospect of low intensity conflicts for years to come Drawing on a range of experiences from a visit to a ward of wounded combat veterans to correspondence with former cadets from a conference on Edith Wharton and wartime experience to teaching literature and film to future officers Samet illuminates an ambiguous passage through no man s land that has left deep but difficult to read traces on our national psyche our culture our politics and most especially an entire generation of military professionals In *No Man's Land* Elizabeth D Samet offers a moving urgent examination of what it means to negotiate the tensions between war and peace between over there and over here between life on the front and life at home She takes the reader on a vivid tour of this new landscape marked as much by the scars of war as by the ordinary upheavals of homecoming to capture the essence of our current historical moment

No Man's Land Sara Driscoll, 2024-04-16 Special Agent Meg Jennings and her search and rescue dog are on the trail of a killer hiding where others fear to tread For Meg Jennings and her K 9 companion Hawk exploring the ruins of a deserted building is an exciting way to sharpen their skills

without the life or death stakes they face as part of the FBI's Human Scent Evidence Team. But deep in the echoing rooms of an abandoned asylum Hawk finds the body of an elderly woman. The victim couldn't have made her way into the derelict building on her own. Before forty-eight hours pass Meg learns of three more cases of elders found dead in neglected urban structures. There's not enough evidence to link the deaths yet. But Meg scents a pattern and when she gets word of another senior gone missing she and Hawk don't hesitate. Meg is sure a murderer is hunting the elderly and she can prove it if she can just find a connection. It will take the expert coordination of her whole team along with help from Clay McCord and Todd Webb to uncover the means let alone a motive. And to stop someone who has operated in the dark for so long Meg will need to risk more than she has to give.

No Man's Land: The war of the words Sandra M. Gilbert, Susan Gubar, 1988-01-01 V 1 the war of the words V 2 sexchanges *The Great War in Irish Poetry* Fran Brearton, 2003 The Great War in Irish Poetry explores the impact of the First World War on the work of W B Yeats Robert Graves and Louis MacNeice in the period 1914-45 and on three contemporary Northern Irish poets Derek Mahon Seamus Heaney and Michael Longley. Its concern is to place their work and memory of the Great War in the context of Irish politics and culture in the twentieth century. The historical background to Irish involvement in the Great War is explained as are the ways in which issues raised in 1912-20 still reverberate in the politics of remembrance in Northern Ireland particularly through such events as the Home Rule cause the loss of the Titanic the Battle of the Somme the Easter Rising. While the Great War is perceived as central to English culture and its literature holds a privileged position in the English literary canon the centrality of the Great War to Irish writing has seldom been recognised. This book shows first that despite complications in Irish domestic politics which led to the repression of memory of the Great War Irish poets have been drawn throughout the century to the events and images of 1914-18. This engagement is particularly true of those writing in the troubled Northern Ireland of the last thirty years. The second main concern is the extent to which recognition of the importance of the Great War in Irish writing has itself become a casualty of competing versions of the literary canon.
