**NAFTA — Past, Present and Future** P. Coffey, J. Colin Dodds, Enrique Lazcano, Robert Riley, 2012-12-06 NAFTA has been described by one

expert as being a partial customs union. It is in any case a special kind of free trade area because it consists of two highly developed economies and one large third world economy. In this book the contributors examine the specific interests of the three member countries: Canada, Mexico and the United States in the creation of NAFTA. They also assess the influence of this trade area on their economies. Looking to the future, doubts are expressed about the feasibility of using NAFTA as a hope expressed by the USA as a stepping stone in the creation of a Free Trade Area of the Americas. Instead, the contributors see the consolidation of MERCOSUR in Latin America and the creation of a new Trans Atlantic Market as proposed by Sir Leon Brittan as more likely developments.

**The Political Economy of China-Latin America Relations** Alvaro Mendez, Mariano Turzi, 2020-03-21. The authors hypothesize that a dearth of regional agency and social construction and a consequent institutional deficit in foreign relations characterizes Latin America and its inadequate reaction to Chinese agency. The volume includes multiple case studies from eight Latin American countries and discusses the Asian Infrastructure Investment Bank's initiatives and policies. The book will interest scholars, researchers, policy makers, foreign policy analysts and graduate students in Latin American and Asian politics as well as development studies and political economy.
