## **Management Development Strategy And Practice:**

Management Development Jean Woodall, Diana Winstanley, 1998-05-08 Management Development is an essential text for master s level human resource management programs and for high level practitioners Management Development Strategy In The Financial Sector Malcolm Higgs, 1988-03-08 **Management Development** Alan Mumford, Jeffrey Gold, Chartered Institute of Personnel and Development, 2004 Designed for students of Management Development on the CIPD PDS qualification and in business and HR degree programmes this text offers an overview of management development to practitioners It includes features such as chapter outline web links end of chapter discussion questions and summary exercises and searching the web *Management Development Strategies* John J. Sherwood, Susan N. Faux, Donald C. King, 1983 **Management and Leadership Development** Christopher Mabey, Tim Finch Lees, 2007-12-12 This is the first really thought provoking book that I have read on management development It is a book primarily addressed to students but in this field we are all students It merits a wide readership both among practising managers as well as among those responsible for developing them Max Boisot ESADE Mabey and Finch Lees inject a breath of fresh air into the management development field by expanding upon its heretofore functionalist base They offer an informative critique of mainstream views featuring alternative discourses to examine such hard questions as why management development hasn t quite delivered on management s considerable investment in it As a veritable tour de force in its absorbing integration and review of a large tract of literature the book informs both management scholars and practitioners what might be expected from management development s intended but also unanticipated outcomes Joe Raelin Northeastern University In a well written accessible and yet sophisticated text Mabey and Finch Lees show themselves to be as familiar with the latest in management development practice as they are with the sometimes arcane theoretical literature that surrounds it Its great strength is to recognize the plurality of discourses some overlapping and complementary others distinct and oppositional about the subject This book can be recommended as a unique resource for students and scholars of management development Chris Grey University of Warwick This book represents a significant step forward in the theory of management and leadership development It offers an international perspective in this era of globalisation and a new and questioning perspective on the common belief that leadership is something completely different to and more important than management This book will be of great help to the serious theorist and researcher of management and leadership development It is an invaluable point of reference for a broad range of theory and research in this area which it summarises with admirable brevity and clarity John G Burgoyne Lancaster University Management School and Henley Management College Management development is a potent and high profile human resource activity involving some of the organizations key players and attracting huge hopes and investments from governments organizations and individuals alike Yet at several levels the high expectations often remain unfulfilled So why is this a subject and activity that continues to command such intense interest from scholars and practitioners alike Chris Mabey

and Tim Finch Lees provide a fresh analysis of the concept and practice of management and leadership development MLD Grounded in research the authors set out the current state of management and leadership development practices before introducing readers to competing theories of MLD and offering them a more critical perspective Throughout the book ideas are illustrated by international case studies and vignettes that evoke the perceptions and interests of the whole range of stakeholders in the management development process Management Development has been written for upper level undergraduate and masters level students pursuing courses in HRM HRD Leadership Development Organizational Behaviour Management Organization Change Personnel Management and training and development modules
