## **Management Of Radioactive Wastes Issues For Local Authorities:**

*Management of Radioactive Waste* Stewart Kemp,1991 Radioactive waste poses one of the most divisive environmental problems of the 1990s This book explores key issues facing local government including the implications of current proposals to develop a deep disposal facility for low level and intermediate level radioactive waste      **Management of Radioactive Wastes** F. Barker,1998 The catalyst for the conference which gave rise to these proceedings was the decision of the former UK Government to block further investigation by the nuclear waste agency UK Nirex Ltd for a national radioactive waste repository near the Sellafield site This decision made it essential to reconsider the question Where next for radioactive waste management The papers in this volume pinpoint the key issues that need to be addressed      Management of Radioactive Waste Stewart Kemp,1991 Annotation Radioactive waste poses one of the most divisive environmental problems of the 1990s This book explores key issues facing local government including the implications of current proposals to develop a deep disposal facility for low level and intermediate level radioactive waste      *Nuclear Waste Politics* Matthew Cotton,2017-07-14 The question of what to do with radioactive waste has dogged political administrations of nuclear powered electricity producing nations since the inception of the technology in the 1950s As the issue rises to the forefront of current energy and environmental policy debates a critical policy analysis of radioactive waste management in the UK provides important insights for the future Nuclear Waste Politics sets out a detailed historical and social scientific analysis of radioactive waste management and disposal in the UK from the 1950s up to the present day drawing international comparisons with Sweden Finland Canada and the US A theoretical framework is presented for analysing nuclear politics blending literatures on technology policy environmental ethics and the geography and politics of scale The book proffers a new theory of ethical incrementalism and practical policy suggestions to facilitate a fair and efficient siting process for radioactive waste management facilities The book argues that a move away from centralised high capital investment national siting towards a regional approach using deep borehole disposal could resolve many of the problems that the high stakes inflexible megaproject approach has caused across the world This book is an important resource for academics and researchers in the areas of environmental management energy policy and science and technology studies      *The proposals for national policy statements on energy* Great Britain: Parliament: House of Commons: Energy and Climate Change Committee,2010-03-23 proposals for national policy statements on Energy Third report of session 2009 10 Vol 2 Oral and written Evidence      **Parliamentary Assembly, Working Papers** BERNAN ASSOC,2008-06-30      **Nuclear and Hazardous Waste Problems in New Hampshire** United States. Subcommittee on HUD-Independent Agencies,1981      **Challenges of Nuclear Waste Governance** Achim Brunnengräber,Maria Rosaria Di Nucci,Ana María Isidoro Losada,Lutz Mez,Miranda A. Schreurs,2018-03-17 This is volume two of a comparative analysis of nuclear waste governance and public participation in decision making regarding the storage and siting of high level

radioactive waste and spent fuel in different countries The contributors examine both the historical and current approaches countries have taken to address the wicked challenge of nuclear waste governance The analyses discuss the regulations technology choices safety criteria costs and financing issues compensation schemes institutional structures and approaches to public participation found in each country *Weekly Compilation of Presidential Documents* ,1980 **EPA-SAB-RAC.** ,1995 **Governance of Radioactive Waste, Special Waste and Carbon Storage** Thomas Flüeler,2023-04-05 This book demonstrates that the long term safety of nuclear waste repositories special waste disposal and carbon storage CCS is highly challenging and monitoring may contribute to substantiate evidence support decision making and legitimise the programme Deep geological disposal is a long term safety issue and in parallel requires long term institutional involvement of the technoscientific community waste producers public administrators NGOs and the public What where and when to monitor is determined by its goal setting It may be operational confirmatory in the near field or environmental far field Strategic monitoring as proposed here contributes to process implementation or policy and institutional surveillance It not only addresses the controversial long lasting problem of nuclear other toxic or CO2 waste but investigates some ways to approach for solutions or solution spaces not just technical but also institutional societal and personal It includes the tailored transfer of knowledge concept and system understanding experience and documentation to specific audiences above It is an integrative tool of targeted yet adaptive management and may be applicable to other long term sociotechnical fields

**Communication and Stakeholder Involvement in Radioactive Waste Disposal** IAEA,2022-04-13 Communication and stakeholder involvement are essential components for a successful disposal program Experience around the world suggests that the scientific and technological bases for the safe disposal of radioactive waste are available disposal solutions exist or can be developed based on established knowledge However concerns and opposition among the public and other stakeholders could slow or even prevent the implementation of needed disposal solutions This publication provides practical guidance on communication and stakeholder involvement for countries embarking on relaunching or revising a disposal programme It draws upon past experiences and emphasizes that practical implementation requires adjusting to the evolving context as given by the national social and political circumstances The primary intended users of this publication include those working in the field of radioactive waste management in government regulatory bodies and industry and especially in organizations responsible to implement solutions for radioactive waste disposal **Plans and Practices for Groundwater Protection at the Los Alamos National Laboratory** National Research Council,Division on Earth and Life Studies,Nuclear and Radiation Studies Board,Committee for the Technical Assessment of Environmental Programs at the Los Alamos National Laboratory,2007-10-18 The world s first nuclear bomb was a developed in 1954 at a site near the town of Los Alamos New Mexico Designated as the Los Alamos National Laboratory LANL in 1981 the 40 square mile site is today operated by Log Alamos National Security LLC under contract to the National Nuclear Security Administration NNSA of the U S Department

of Energy DOE Like other sites in the nation s nuclear weapons complex the LANL site harbors a legacy of radioactive waste and environmental contamination Radioactive materials and chemical contaminants have been detected in some portions of the groundwater beneath the site Under authority of the U S Environmental Protection Agency the State of New Mexico regulates protection of its water resources through the New Mexico Environment Department NMED In 1995 NMED found LANL s groundwater monitoring program to be inadequate Consequently LANL conducted a detailed workplan to characterize the site s hydrogeology in order to develop an effective monitoring program The study described in Plans and Practices for Groundwater Protection at the Los Alamos National Laboratory Final Report was initially requested by NNSA which turned to the National Academies for technical advice and recommendations regarding several aspects of LANL s groundwater protection program The DOE Office of Environmental Management funded the study The study came approximately at the juncture between completion of LANL s hydrogeologic workplan and initial development of a sitewide monitoring plan *Municipal Journal* ,1989-05 **Managing the nation's commercial high-level radioactive waste. ,** Issues in Medical Waste Management United States.
