**Embracing and Managing Change in Tourism** Bill Faulkner,Eric Laws,Gianna Moscardo,2003-09-02 Examines management responses to the major changes taking place in international tourism and considers tourism itself as an agent of change

*Integrative Document & Content Management* Len Asprey,Michael Middleton,2003-01-01 Portals present unique strategic challenges in the academic environment Their conceptualization and design requires the input of campus constituents who seldom interact and whose interests are often opposite The implementation of a portal requires a coordination of applications and databases controlled by different campus units at a level that may never before have been attempted at the institution Building a portal is as much about constructing intra campus bridges as it is about user interfaces and content Designing Portals Opportunities and Challenges discusses the current status of portals in higher

education by providing insight into the role portals play in an institution's business and educational strategy by taking the reader through the processes of conceptualization design and implementation of the portals in different stages of development at major universities and by offering insight from three producers of portal software systems in use at institutions of higher learning and elsewhere

**Integrated Network Management V** Aurel Lazar, Robert Saracco, 2013-06-05 Welcome to IM 97 We hope you had the opportunity to attend the Conference in beautiful San Diego If that was the case you will want to get back to these proceedings for further readings and reflections You'll find e-mail addresses of the main author of each paper and you are surely encouraged to get in touch for further discussions You can also take advantage of the CNOM Committee on Network Operation and Management web site where a virtual discussion agora has been set up for IM 97 URL <http://www.csel.stet.edu/CNOMWWW/IM97.html> At this site you will find a brief summary of discussions that took place in the various panels and slides that accompanied some of the presentations all courtesy of the participants If you have not been to the Conference leafing through these proceedings may give you food for thought Hopefully you will also be joining the virtual world on the web for discussions with authors and others who were at the Conference At IM 97 the two worlds of computer networks and telecommunications systems came together each proposing a view to management that stems from their own paradigms Each world made clear the need for end-to-end management and therefore each one stepped into the other's field We feel that there is no winner but a mutual enrichment The time is ripe for integration and it is likely that the next Conference will bear its fruit
