Arts - Therapies - Communication European Arts Therapy Line Kossolapow, Sarah Scoble, 2005 Stipulation of a present actual position of Art Therapy however inevitably leads to further thoughts about ongoing development Everything required for the theoretical practical founding of a European Art Therapy as discipline still has to be done including construction of a communicative bridge to partners in other continents or countries

This development work has two strands of development One follows a more theoretical direction with European Art Therapy as a research and teaching subject as an objective in view The other is directed more towards practical fieldwork which in turn can lead to the establishment of funds of experience as well as quantitative and qualitative investigations and thus to theoretical methodical statements In the contributions on hand both connections pervade Naturally the individual articles in this collection do not fully expound the volume of art therapeutic work throughout Europe but they are a source of information and inspiration for the user from theory and or practice who can then find his particular niche with his own specific interests within the cross section and subsequently continue the discourse spatially and objectively *Catalog of Copyright Entries.
