and Communication for Global Leaders aims to provide relevant theoretical conceptual procedural and the latest empirical research findings frameworks that critically examine the areas of leadership leadership styles management studies and communication for leaders globally It is designed for multi sectoral interests in business and educational organizations chief executive officers executive members team leaders industry leaders human resource directors personnel leadership and management leaders and practitioners      **Management and Leadership for Nurse Managers** Russell C.

Swansburg,1996 This edition of the highly acclaimed Management and Leadership for Nurse Managers offers theoretical and practical perspectives on the major management functions as they are practiced in today s organizations The author introduces current and future nurse managers to the challenges of planning organizing leading and controlling The most recent research on management theory is incorporated throughout the book in the context of its practical application New coverage includes total quality management pay for performance the rising temporary workforce and downsizing      A *Description of Management Styles and Resource Support Systems of Michigan Community College Occupational Deans* Charles J. Corrigan,1974      *Impact of Leadership Styles on Employee Empowerment* Krishna Murari,2015-02-17 The book is based on exploratory research carried out by the author in Indian Business Organizations It gives insights to Employee Empowerment and five important leadership styles namely Transformational Leadership Transactional Leadership Servant Leadership Abusive Leadership and Ethical leadership and their characteristics based on the researches carried out by the scholars and gurus in these fields Transformational leadership servant leadership and ethical leadership style enhance the employee empowerment while transactional leadership has no role in employee empowerment The book highlight that abusive leadership style is used by many leaders and has negative impact on employee empowerment Employee empowerment results in Quality of Work Life Commitment and Job Involvement in employees which enhance competitiveness of the organization It also emphasizes the important of personal characteristics of employees required to make them empowered Some employees like to be empowered while some others do not This book provides guidance to new researchers in the field of leadership and employee empowerment to carry out further researches in these fields in various countries and cultures The book will guide the managers to identify and enhance the required characteristics to be a successful leader This book will be a new milestone in the above fields of research and beacon to the practicing managers to navigate them to higher success      **Project Managers' Leadership Styles in Information Technology Sector of Pakistan** Muhammad

Khalique Ahmad,Abu Bakar Abdul Hamid,Sazali ABD Wahab,2021-10-26 In these competitive and turbulent times project organisations face severe challenges Despite the advancement of project management tools and techniques the rate of project failure exceeds that of success Regardless of calls for further empirical studies on the role of project leadership researchers struggle to find the best leadership styles for project success New digital transformation phenomena have forced organisations to offer more autonomy and decision making authority to those at lower hierarchical levels In this scenario top

management support plays a facilitator role To the best of the researcher s knowledge no past studies have examined these critical project success factors simultaneously in a project environment Embedded in the theories of contingency goal setting and social cognition this study raised the hypothesis that project managers leadership styles impact project success via the mediation of goal clarity empowerment and self leadership as well as the moderation of top management support Data was collected by administering a cross sectional survey to 289 project organisations in the IT sector The results demonstrated that project managers transactional leadership style does not impact project success because goal clarity has an insignificant association with project success However the transformational leadership style showed a positive impact on project success because empowerment significantly and positively relates to project success The project manager s empowering leadership style was also found to positively influence project success through followers self leadership Additionally top management support revealed a significant moderating role by strengthening the relationship between empowerment and project success This study successfully fills theoretical gaps by introducing a novel moderated mediation model The findings also offer useful insights to practitioners by revealing that project managers transformational leadership and empowering leadership are needed to enhance and encourage employee empowerment and self leadership and ultimately secure project success
