Whether globalization will lead to the collapse of the nation-state is still debatable. However, what globalization has done is to make the markets a lot more competitive, and interdependent. The interdependency, in turn, has made markets a lot more fragile. An economic downturn in the US could trigger a slowdown in India. The 2008 housing market crash in the States led to a global recession.

To survive such a competitive and fragile environment, businesses need to be on their toes, all the time. They should be looking at the next growth hacking opportunity to stay ahead of the game. The objective of growth hacking is to streamline business processes, maximize efficiency, and delivering unique experiences to your customers. For instance, if you are a small business and you failed to capitalize on Instagram's advertising opportunities early on, you probably missed (a very important) bus.

While there is no set formula for growth hacking, there are tools out there that can set you on your path to a more efficient organization.

## **5 Essential Categories of Tools for Any Organisation**

Rapid innovation in your industry, barrier to entry, and financial upheavals can wreak havoc with your business plans. The effects can be more severe if you are a small business. In a world where most communication happens online, and data is more precious than oil, here is a set of tools that can help you fight in a global economy.

### **1. Customer Relationship Management**

---

In the modern landscape governed by digital interactions, you are very likely to interact with a potential customer multiple times before they convert to actual sales. A contemporary customer journey isn't linear. Typically, people will go back and forth between different channels before they decide to buy from you.
