Analysis Muhammet Gul, Melih Yucesan, Melike Erdogan, 2022-12-16 Multi Criteria Decision Making MCDM includes methods and tools for modeling and solving complex problems. MCDM has become popular in the production and service sectors to improve the quality of service, reduce costs, and make people more prosperous. This book illustrates applications through case studies focused on disaster management. With a presentation of both Multi Attribute Decision Making MADM and Multi Objective Decision Making MODM models, this is the first book to merge these methods and tools with disaster management. This book raises awareness for society and decision makers on how to measure readiness and what necessary preventive measures need to be taken. It offers models and case studies that can be easily adapted to solve complex problems and find solutions in other fields. Multi Criteria Decision Analysis Case Studies in Disaster Management will offer new insights to researchers working in the areas of industrial engineering, systems engineering, healthcare systems, operations research, mathematics, business, computer science, and disaster management, and hopefully the book will also stimulate further work in MCDM. *International Encyclopedia of Business Management*, 2025-09-01 The Encyclopedia of Business
