**The Balancing Act** J. Harrison Drake, 2010-05-05. **The Balancing Acts of Academic Leadership** Jeanne A. K. Hey, 2021-11-15. Are you an academic leader or considering taking on a leadership position in the academy? Then this book is for you, even in an era of crisis in the highly complex higher education sector. A one size fits all leadership philosophy can not meet all the challenges and opportunities facing academic leaders. Rather, successful leaders require a range of approaches and an ample supply of tools to maximize their effectiveness. This volume takes you through a series of balancing acts, each of which helps you to tailor your leadership choices to the issue at hand. It helps leaders to identify your current strengths and comfort zone in a series of dimensions and then encourages you to move beyond those comfort zones and to develop an ever expanding array of leadership tools and skills. The result will be greater effectiveness in your decision making, relationships and management.

*Creating Balance?* Stephan Kaiser, Max Josef Ringlstetter, Doris Ruth Eikhof, Miguel Pina e Cunha, 2011-01-04. A satisfactory and healthy integration of work with other life domains is one of the key challenges of modern society. Work life

balance and work life integration have become focal points of today's human resource management practice and theory. Professionals who have been described as extreme workers regarding their work hours and engagement are under particular pressure to balance work and the rest of life. This collection maps the increasingly extensive discussion of work life issues for professionals and discusses key aspects in depth. What is work life integration? What are the specific challenges for professionals? How do they manage their blurred work life boundaries? How can companies intervene? Internationally leading authors discuss antecedents and individual and organizational outcomes of work life integration, gender specific perspectives and challenges as well as the use and usefulness of corporate work life balance initiatives. In five sections, distinguished researchers from across the world present experiences and research findings to provide a compendium of academic and applied research on the work life integration of professionals. Cutting edge research and novel theoretical perspectives make this collection a source of knowledge and inspiration for academic and business audiences interested in work life integration issues in general and in the case of professionals in particular.

*Eyes Everywhere* Aaron Doyle, Randy Lippert, David Lyon, 2013-03-01. In many countries, camera surveillance has become commonplace and ordinary citizens and consumers are increasingly aware that they are under surveillance in everyday life. Camera surveillance is typically perceived as the archetype of contemporary surveillance technologies and processes. While there is sometimes fierce debate about their introduction, many others take the cameras for granted or even applaud their deployment. Yet what the presence of surveillance cameras actually achieves is still very much in question. International evidence shows that they have very little effect in deterring crime and in making people feel safer, but they do serve to place certain groups under greater official scrutiny and to extend the reach of today's surveillance society. *Eyes Everywhere* provides the first international perspective on the development of camera surveillance. It scrutinizes the quiet but massive expansion of camera surveillance around the world in recent years, focusing especially on Canada, the UK, and the USA, but also including less debated but important contexts such as Brazil, China, Japan, Mexico, South Africa, and Turkey. Containing both broad overviews and illuminating case studies, including cameras in taxi cabs and at mega events such as the Olympics, the book offers a valuable oversight on the status of camera surveillance in the second decade of the twenty-first century. The book will be fascinating reading for students and scholars of camera surveillance as well as policy makers and practitioners from the police, chambers of commerce, private security firms, and privacy and data protection agencies.
