Managing Arms in Peace Processes Eric Berman, Eric G. Berman, United Nations Institute for Disarmament

Research, 1996 From the John Holmes Library collection **Managing Arms in Peace Processes** Eric Berman, 1996

Managing Arms in Peace Processes Clement Adibe, J. W. Potgieter, 1995 **Managing Arms in Peace Processes**

, 1995 **United Nations Disarmament Processes in Intra-State Conflict** S. Hill, 2004-10-01 During the 1990s the United Nations was called upon to conduct unprecedented peacekeeping and humanitarian operations in order to bring peace to war torn states Essential to the resolution of these conflicts was deemed to be the disarmament of the former warring parties United Nations Disarmament Processes in Intra State Conflict therefore seeks to identify the most important lessons taught by the UN's experiences in disarmament and constructs an original analytical framework to explain the variation in the UN's success On this basis Stephen M Hill proffers recommendations for the UN's present and future disarmament operations **Small Arms and Security** Denise Garcia, 2006-09-27 This book examines the emergence of new

international norms to govern the spread of small arms and the extent to which these norms have been established in the policies and practices of states regions and international organizations It also attempts to establish criteria for assessing norm emergence and to assess the process of norm development by comparing what actually happens at the multilateral level If norm making on small arms and related multilateral negotiations have mostly dealt with illicit arms and most of the norms examined here fall on the arms supplier side of the arms equation the author argues that the creation of international norms and the setting of widely agreed standards amongst states on all aspects of the demand for availability and spread of both legal and illegal small arms and light weapons must become central to the multilateral coordination of policy responses in order to tackle the growing violence associated with small arms availability Small Arms and Security will be of interest to researchers and professionals in the fields of peace and conflict studies global governance international security and disarmament Securing Peace in Angola and Mozambique Miranda Melcher, 2024-03-21 This book helps explain how and

why there are such diverging outcomes of UN peace negotiations and treaties through a detailed examination of peace processes in the Angolan and Mozambican civil wars Does it really matter what's written on page 36 protocol V section III point 5 of a UN endorsed peace treaty Dr Miranda Ruwart Melcher shows that seemingly small details such as who wears suits who has toothbrushes and how specific words are translated between French and English can and have delayed peace or contributed to restarting wars Dr Melcher uses unique primary source data including interviews with key actors who have participated in peace treaty negotiations as well as thousands of previously newly opened UN documents She argues that treaty specificity is an undervalued but important factor in researching the success or failure of peace processes The book offers new insights and policy recommendations for key details whose presence or absence can have a significant impact on how peace processes unfold Contemporary Peace Making J. Darby, R. Mac Ginty, Roger Mac Ginty, 2002-12-19

Contemporary Peace Making draws on recent experience to identify and explore the essential components of peace processes Each chapter examines a different element in recent peace processes The collection is organized around five main themes planning for peace during periods of violence the process of negotiations including pre negotiation the effects of violence on peace processes peace accords constitutional and political options and securing the settlement and building the peace

Small Arms Control Jayantha Dhanapala,Mitsuro Donowaki,Lora Lumpe,2019-01-04 First published in 1999 the papers collected in this volume were originally prepared for four workshops organized by the UN Department for Disarmament Affairs to inform the work of the Panel of Governmental Experts on Small Arms These workshops were held during 1995 96 Some of the authors updated their papers for publication in early 1998 Lora Lumpe senior fellow with the Norwegian Initiative on Small Arms Transfers in Oslo and Tamar Gabelnick Acting Director of the Arms Sales Monitoring Project at the Federation of American Scientists in Washington DC edited the presentations for this book **Peacekeeping Intelligence**

David Carment,Martin Rudner,2007-01-24 This is a new evaluation of the role dynamics and challenges of intelligence in peacekeeping activities and its place in a much wider social economic and political context It assesses the role of coalition forces law enforcement agencies development institutions and non governmental organisations who have become partners in peace support activities Peacekeeping Intelligence PKI is a new form of intelligence stressing predominantly open sources of information used to create Open Source Intelligence OSINT and that demands multi lateral sharing of intelligence at all levels Unlike national intelligence which emphasizes spies satellites and secrecy PKI brings together many aspects of intelligence gathering including the media and NGOs It seeks to establish standards in open source collection analysis security counterintelligence and training and produces unclassified intelligence useful to the public The challenges facing peacekeeping intelligence are increasingly entwined with questions of arms control commercial interests international crime and ethnic conflict This book will be of great interest to all students and scholars of military and security studies intelligence and peacekeeping *Nationalism and Ethnic Conflict, revised edition* Michael E. Brown,Owen R. Cote, Jr.,Sean M.

Lynn-Jones,Steven E. Miller,2001-09-14 Understanding the roots and causes of ethnic animosity analyses of recent events in Bosnia Kosovo Rwanda Somalia and the former Soviet Union Most recent wars have been complex and bloody internal conflicts driven to a significant degree by nationalism and ethnic animosity Since the end of the Cold War dozens of wars in Bosnia Kosovo Rwanda Somalia the former Soviet Union and elsewhere have killed or displaced millions of people Understanding and controlling these wars has become one of the most important and frustrating tasks for scholars and political leaders This revised and expanded edition of *Nationalism and Ethnic Conflict* contains essays from some of the world s leading analysts of nationalism ethnic conflict and internal war The essays from the first edition have been updated and supplemented by analyses of recent conflicts and new research on the resolution of ethnic and civil wars The first part of the book addresses the roots of nationalistic and ethnic wars focusing in particular on the former Yugoslavia The second part

assesses options for international action including the use of force and the deployment of peacekeeping troops The third part examines political challenges that often complicate attempts to prevent or end internal conflicts including refugee flows and the special difficulties of resolving civil wars

Demobilizing Irregular Forces Eric Y. Shibuya, 2013-04-18 From Afghanistan and Sierra Leone to East Timor the aftermath of any armed conflict presents a complex set of challenges Whatever political agreements may have been reached conflicts are often at risk of reigniting and the fates of their former participants remain uncertain Armed groups may not be easily dissuaded from pursuing belligerent activities which they see as both profitable and understandable behaviour In the face of these difficulties the process of disarmament demobilization and reintegration DDR attempts to convince combatants to relinquish their weapons and return to civilian life It is a crucial first step towards lasting peace Demobilizing Militias is the first comprehensive introduction to DDR in the contemporary world Examining regions as varied as Africa Asia and Central America it guides readers through the different stages of the DDR process as well as assessing competing perspectives surrounding its implementation Attentive to the problems faced by practitioners Eric Shibuya argues against a one size fits all approach emphasizing the importance of social and psychological contexts in fostering the trust that is necessary for DDR to succeed Accessible and incisive it will be an ideal resource for students of politics security and conflict studies as well as anyone interested in the dynamics of peacebuilding today

Mozambique Richard Synge, 1997 By the time it ended in 1992 Mozambique's 15 year civil war had exacted a terrible price Economically paralyzed the vast drought stricken country was rich only in enmity landmines and AK 47s Into this misery was thrust a multifaceted UN mission ONUMOZ to manage the transition from military combat to electoral contest Remarkably when ONUMOZ departed two years later that job was largely done This comprehensive account describes how ONUMOZ went about its tasks assembling and demobilizing troops providing humanitarian aid demining preparing for elections and assesses how well each was accomplished and why Richard Synge takes us behind the scenes of the operation unearthing new information from confidential UN files and from face to face interviews with leading players Even handed and rigorous Synge highlights not only the strengths but also the weaknesses of ONUMOZ and he puts ONUMOZ firmly in its international and regional context Among the many lessons ONUMOZ offers future peacekeeping efforts is that success demands the support of an engaged international community and a people eager to make peace work

Civil Wars, Insecurity, and Intervention Barbara F. Walter, Jack L. Snyder, 1999 Since the end of the Cold War a series of costly civil wars many of them ethnic conflicts have dominated the international security agenda This volume offers a detailed examination of four recent interventions by the international community

Post-conflict Disarmament, Demobilization and Reintegration Antonio Giustozzi, 2016-04-08 This book revisits post Cold War Disarmament Disintegration and Reintegration DDR programmes in the light of previous experiences of disarmament demobilisation and reintegration In the history of North America and Europe in particular such programmes had a major impact on state building contributing to the

development of the welfare state shaping political settlements and directing government policy to maintain social peace The authors in this important book ask what is left of these state building dimensions in contemporary DDR programmes and whether the constraints imposed by international organisations on DDR programmes have more negative effects than positive ones The role of political leadership in DDR processes is highlighted can bureaucratically driven processes deliver success Only if political elites take full control and manage DDR programmes can there be a lasting impact on state building Even then most political elites avoid deep changes in their relationship with the veterans Is there a chance of reshaping international intervention in such a way as to favour the development of a social contract between political elites and veterans In taking a historical perspective this book is unique in the existing literature on DDR and will be essential reading for policy makers students and scholars of conflict studies and those working in NGOs particularly donor agencies This volume was produced with the contribution of the Crisis States Research Centre LSE

Disarmament, Demobilization and Reintegration in Southern Africa Gwinyayi Albert Dzinesa, 2017-08-24 This book is a critical comparative reflection of the post colonial conflict Disarmament Demobilization and Reintegration DDR of ex combatants in Zimbabwe Namibia and South Africa It offers an up to date comparative analysis of how specific analytical elements that transcend state boundaries shaped DDR in the three southern African countries The author explores structural and organizational frameworks target groups state leadership in DDR linkages between DDR and SSR in nation and state building and types of post conflict violence The volume draws on fieldwork including interviews with policy makers and government officials as well as ex combatants and experts to provide valuable insights into how post colonial conflict DDR can provide knowledge crucial to understanding and addressing the problems of post conflict peace building in Africa The book is aimed at academics researchers and students working on Southern Africa African and Western policymakers concerned with problematic post conflict situations on the continent where improvising DDR processes will be vital to success as well as the general reader interested in political security and other developments in the region It will be of use in postgraduate courses in the inter related fields of international relations comparative government conflict resolution and peacebuilding

Walking the Tightrope Jaïr van der Lijn, 2006 The media generally tend to focus in particular on the failures of U N peacekeeping operations In Walking the Tightrope Jaïr Van Der Lijn draws a different conclusion He argues once a peace agreement has been signed the efforts of the U N peacekeeping operations do contribute to durable peace By analyzing the U N peacekeeping operations in Cambodia Mozambique Rwanda and El Salvador in a structured focused comparison this book shows how U N operations do have a contribution to make

Why Peacekeeping Fails Dennis C. Jett, 2019-05-15 In this thoroughly revised edition of his bestselling 1999 volume Why Peacekeeping Fails Dennis Jett explains why peacekeepers today are dying in record numbers while engaged in operations that either are bound to fail or make little contribution to peace The original book compared a wide range of peacekeeping experiences including the unsuccessful attempt at

peacekeeping in Angola with the successful effort in Mozambique in the early 1990 s to argue for the importance of peacekeeping and suggest ways to improve its chances for success Nearly two decades later the number of UN peacekeepers has risen to 100 000 from 15 000 and yet after years of expansion support for peacekeeping seems to be diminishing This thoroughly revised and updated 20th anniversary edition half of which is completely new material provides a timely update to Jett s previous volume examining why the dramatic growth in peacekeeping has occurred how it is now being used and why the challenges peacekeepers face cannot be dealt with alone Also considering the impact of terrorism on both recent and longstanding peacekeeping operations this book will assess the prospects of peacekeeping in an era in which the United States seems to be withdrawing from the world

Frontiersmen Anthony Clayton,2002-01-04 Since 1950 there has been almost continuous military unrest in Africa This study offers an overview of warfare in this period examining a military tradition that ranges from the highly sophisticated electronic air and armour fighting between South Africa and Angola Cuban forces to the spears and machetes of the Rwandan genocide The author explores two themes first that warfare in North Africa has principally been a matter of identity and secondly that warfare south of the Sahara is comparable with that of pre colonial Africa conflicts of frontiersmen trying to extend their control over land and resources Exploring liberation campaigns civil wars ethnic conflicts and wars between nations this study provides an authoritative military history of Africa over half a century

The UN, Peace and Force Michael Pugh,2013-11-05 Restoring and maintaining peace within war torn societies is a relatively new task for the United Nations This book examines the options for the UN in the use of force to secure peace and the extent to which peacekeeping can be effectively extended to coerce warring factions A combination of internationally distinguished academics and new scholars at the forefront of research are represented making an important contribution to the debate about the role of international military operations in the maintenance of international peace and security
