Preference theory is grounded on the substantial body of new research on women's work and fertility that has flourished within feminist scholarship. It identifies five major historical changes that collectively are producing a qualitatively new scenario for women in prosperous societies in the 21st century. Throughout the analysis, the USA and Britain illustrate what the new scenario means for women, how it alters their preferences and work/lifestyle choices. Hakim also reviews research evidence on contemporary developments across Europe, Canada, Australia, Japan, and the Far East to develop a new theory that is genuine international in perspective.

Choices William R. Johnston P.E., 2022-03-10 Mr Johnston has written an interesting unconventional chronological summary of his life from birth through age 87. He intricately blends his professional and personal life throughout the book as he points out how the many CHOICES made by himself and by others have impacted his life. He reminisces about his family life, education, experiences, personal relationships, and work obligations. He shows how the experience of growing up on an Oregon farm provided him with life-lasting teachings. Mr Johnston describes his marriages, his children, their children, and related joyous plus not so joyous experiences. He describes his various job assignments, his consulting practice, and how his work related to his personal life. Mr Johnston's overseas consulting exposed him to numerous foreign cultures. Those consulting experiences influenced his desire to travel and see even more of the world, which he outlines in his chronology.

In the Company of Women Karen Hollinger, The locus of Jim Dale Huot Vickery's life is a remote cabin in the northern wilderness of Minnesota's Boundary Waters region. More often than not, it is winter here, a fierce, beautiful season that dominates all living things with its relentless cold grip. This is the inspiration for *Winter Sign*, the profound story of fifteen years of surviving the seven-month-long odyssey of winter in the far north. We know parkas, mukluks, mittens, snowshoes, skis, and sled dogs. Huot Vickery writes, "Snow sparkles gold on cloudless winter mornings. There are shell pink sunsets. Stars glimmer among northern lights. For those of us who know this land, however, beauty is only part of the winter story. There are those long nights, those we rarely speak about, that surely and irrevocably shift the soul. Against this backdrop, Huot Vickery writes authoritatively on the ecology of the area and philosophically about winter's probing of the human spirit. He explores the world of nature and the constant struggle for survival, including his own interactions with white-tailed deer and wolves. Huot Vickery circles around paradoxes and themes that invade the land and his life: nature's beauty and bounty pitted against danger and death, the challenge of self-reliance and the depths of isolation, loss and restoration. And always there is the unrelenting winter, filled with wonder and terror. At turns poignant and harrowing, *Winter Sign* explores the solitude of the dark night of the soul and the sustenance and inspiration winter's wild beauty provides."
