Schoenecke,Deborah A. Carmichael,2021-05-11 Sports films are popular forms of entertainment around the world but beyond simply amusing audiences they also reveal much about class race gender sexuality and national identity In *All Stars and Movie Stars* Ron Briley Michael K Schoenecke and Deborah A Carmichael explore the interplay between sports films and critical aspects of our culture examining them as both historical artifacts and building blocks of ideologies values and stereotypes The book covers not only Hollywood hits such as *Field of Dreams* and *Miracle* but also documentaries such as *The Journey of the African American Athlete* and international cinema such as the German film *The Miracle of Bern* The book also explores television coverage of sports commenting on the relationship of media to golf and offering a new perspective on the culture and politics behind the depictions of the world s most popular pastimes The first part of the book addresses how sports films represent the cultural events patterns and movements of the times in which they were set as well as the effect of the media and athletic industry on the athletes themselves Latham Hunter examines how the baseball classic *The Natural* reflects

traditional ideas about gender heroism and nation and Harper Cossar addresses how the production methods used in televised golf affect viewers The second section deals with issues such as the growth of women s involvement in athletics sexual preference in the sports world and the ever present question of race by looking at sports classics such as Rocky Hoosiers and A League of Their Own Finally the authors address the historical and present day role sports play in the international and political arena by examining such films as Visions of Eight and The Loneliness of the Long Distance Runner This important and unique collection illuminates the prominent role that sports play in society and how that role is reflected in film Analysis of the depiction of sports in film and television provides a deeper understanding of the appeal that sports hold for people worldwide and of the forces behind the historic and cultural traditions linked to sports The New Humor in the Progressive Era R. DesRochers,2014-07-24 By tracing the effects of unprecedented immigration the advent of the new woman and the little known vaudeville careers of performers like the Elinore Sisters Buster Keaton and the Marx Brothers DesRochers examines the relation between comedic vaudeville acts and progressive reformers as they fought over the new definition of Americanness **America Toons In** David Perlmutter,2014-03-13 Animation has been part of television since the start of the medium but it has rarely received unbiased recognition from media scholars More often it has been ridiculed for supposedly poor technical quality accused of trafficking in violence aimed at children and neglected for indulging in vulgar behavior These accusations are often made categorically out of prejudice or ignorance with little attempt to understand the importance of each program on its own terms This book takes a serious look at the whole genre of television animation from the early themes and practices through the evolution of the art to the present day Examining the productions of individual studios and producers the author establishes a means of understanding their work in new ways at the same time discussing the ways in which the genre has often been unfairly marginalized by critics and how especially in recent years producers have both challenged and embraced this marginality as a vital part of their work By taking seriously something often thought to be frivolous the book provides a framework for understanding the persistent presence of television animation in the American media and how surprisingly influential it has been **Screening the Stage** Steven Neale,2017-10-05 Introduced by a comprehensive account of the factors governing the adaptation of stage plays and musicals in Hollywood from the early 1910s to the mid to late 1950s Screening the Stage consists of a series of chapter length studies of feature length films the plays and musicals on which they were based and their remakes where pertinent Founded on an awareness of evolving technologies and industrial practices rather than the tenets of adaptation theory particular attention is paid to the evolving practices of Hollywood as well as to the purport and structure of the plays and stage musicals on which the film versions were based Each play or musical is contextualized and summarized in detail and each film is analyzed so as to pinpoint the ways in which they articulate modify or rework the former Examples range from dramas comedies melodramas musicals operettas thrillers westerns and war film and include The Squaw Man The Poor Little
