Mediterranean Security At The Crossroads:

Mediterranean Security at the Crossroads Nikolaos A. Stavrou, 1999 Mediterranean Security at the Crossroads A Reader explores the diverse and volatile Mediterranean region in its post Cold War state as it enters a new phase of uncertainty Twenty two sovereign states surround this body of water six are part of the Western alliance system three have engaged in or supported terrorism and others face serious internal tensions from territorial claims and ethnic strife Book jacket

Mediterranean Security at the Crossroads ,1997 *Euro-Mediterranean Security: A Search for Partnership* Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy **Masters of the Universe?** Tariq Ali, 2000 A number of distinguished dissidents voice their opinions on the intervention by NATO in the former Yugoslavia The collection also provides background historical information on the conflict in the Balkans **Ibss: Political Science: 1997** British Library of Political and Economic Science, 1999-01-14 Provides an unrivalled overview of intellectual development in political science **NATO at 70** Linda Risso, 2020-06-29 Reflecting on North Atlantic Treaty Organisation NATO at 70 and the organisation's eventful history this book challenges the traditional crisis led approach that sees crises as key driving forces that pushed the alliance in radically new directions It assesses the long term development of NATO since its foundation Based on a wide range of case studies and on multinational archival research the chapters in this book demonstrate the continuous effort of the NATO member states to build a shared political space and a common security thinking to enhance the Alliance resilience and deterrent function The authors also correct the common tendency to focus on either the political or the military dimension of the Alliance They show the deeply ingrained interdependence between the two and how their complexity has shaped the work strategy and development of NATO over time Thanks to its innovative approach and long term scope this volume offers new exciting insights into the history of the Alliance This book comprises articles originally published in Cold War History *Security in an Interconnected World* Ernst Hirsch Ballin, Huub Dijkstra, Peter de Goede, 2020-04-07 This open access book follows the idea that security policy must be based on strategic analysis Defence policy and the role of the armed forces can subsequently be determined on the grounds of said analysis More than ever internal and external security and

developments both in the Netherlands and abroad are interconnected The world order is shifting the cooperation within NATO and the EU is under pressure and the Dutch armed forces are gasping for breath What is the task of Dutch security and the defence policy There have been growing calls in the last few years to end the devastating cuts in the defence budget and to invest more in security The acute threats and conflicts in which the Netherlands are involved have served as a wake up call The shooting down of Flight MH17 over Ukraine the streams of refugees from Syria and other countries the conflict with Da esh in Syria and Iraq and terrorist threats reveal how events in many of the world s flash points have a direct or indirect impact on the Netherlands Conflicts in other countries have a spill over effect in The Netherlands This is illustrated by tensions between population groups and the clashes over the G len schools after the failed putsch in Turkey on 15 July 2016 and over the constitutional referendum in that country How do we ensure that any additional funds are not divided amongst the branches of the armed forces without any sense of strategic direction What should a future proof security policy that plots the course of defence policy entail What strategic analyses should lie behind the political choices that are made This book answers these questions and offers a comprehensive framework addressing among other things human security national security and flow security

Energy and Security in the Caucasus Emmanuel Karagiannis,2013-10-18 Any understanding of the complex politics of the post Soviet Caucasus presupposes an understanding of the relationship between the transportation of Azerbaijan s oil inter state relations and ethnic conflicts Energy and Security in the Caucasus is a contribution to the debate revolving around the geo politics of the Caucasus

Italy as a Regional Power Gabriele Abbondanza,2016-04-01 How did Italy s role of regional power develop How did it change from national unification to the present day This book examines the degree of influence exerted by Italy in its own geopolitical context with special focus on Libya and the Horn of Africa With the aid of different research methods and thanks to two exclusive interviews H E Giulio Terzi di Sant Agata and Gen Vincenzo Ruggero Manca this work traces the many stages that have characterized Italian foreign policy in its sphere of influence its successes and its failures from the country s early colonial policies to the latest events Images graphics maps and confidential documents further enrich the debate on one of the most ancient but controversial regional powers

Geopolitics, Development, and National Security Sebastian Vaduva, Andrew R. Thomas, 2014-12-05 This volume focuses on the spotlight on Romania and Moldova two distinct nations that share a common language history and culture Romania is a NATO member since 2004 and a fully integrated nation into the European Union since 2007 while The Republic of Moldova a former Soviet republic is attempting to join both international organizations for security and development reasons Ever since the Iron Curtain fell on Europe at the end of World War II the term Eastern Europe has been used without much regard for the diversity of the region Given the geographical proximity perhaps this is an understandable error However moving forward into the twenty first century and considering the highly sensitive geopolitical security and development issues playing out in the region we believe each nation should be treated with the unique distinction it deserves Building a mosaic of the most current research practical application and policy the authors who represent unique insider perspectives cover a range of emerging and timely topics from Black Sea security to cultural analyses organizational development and risk assessment shedding light on social political and economic challenges of rapid transition in the region
