Mineral Railways Of The West Country

David Brandon

Mineral Railways Of The West Country:

A Regional History of the Railways of Great Britain: The west country, by David St. John Thomas. Rev.ed David St. John Thomas,1963 **The West Country** David St. John Thomas,1981 *Bodmin Moor: An archaeological survey: Volume 2* Peter Herring,Adam Sharpe,John R. Smith,Colum Giles,Nicholas Johnson,2014-06-30 Bodmin Moor is an upland landscape heavily protected farmed extensively and with an increasingly light touch and enjoyed by many as a retreat from busier modern worlds But it is also a place of industry and the home of busy agricultural communities Well preserved remains of streamworking mining quarrying clay working turf cutting and more intensive farming were subjected to archaeological survey and historical research as part of the wider ranging survey partly covered in the first volume on prehistoric and medieval landscapes Supplementing the survey text are aerial photographs and detailed line drawings mainly plans and elevations but also reconstructions of sites and schematic representations of processes as well as large scale maps of key areas Mineral Railways of the West Country Anthony Fairclough,Eric Shepherd,1975 *The Branch Lines of Somerset* Colin Maggs,2011-06-15 A lavishly illustrated title from acknowledged railway expert Colin G Maggs presenting the story of Somerset s branch lines Beeching: 50 Years On Anthony Poulton-Smith,2013-02-01 In 1963 Dr Beeching s infamous report signalled the end for over 15 000 miles of track a third of Britain s stations and for 70 000 jobs as well as making irrevocable changes to the way of life of many consumers Much misery was caused and Beeching s name was muddled but in hindsight the report probably did more than any other single factor to preserve the nation s railway heritage Without the Beeching cuts much of the locomotives stock tracks signals and signs would have crumbled been forgotten or rotted However the gentle railway gradients lend themselves perfectly to walkways and cycle paths buildings have been refurbished memorabilia now commands prices at auction which would astonish those who painted the metal And of course the heritage lines continue to draw many thousands of visitors each year After the initial shock of the cuts this fresh appraisal considers these benefits and more which may not have come about without the Beeching Report **A Bibliography of British Railway History** ,1988 *The Railway Chronicle* ,1845 **The Railway Magazine** ,1907 *Railway Times* ,1865 Railway News, Finance and Joint-stock Companies' Journal ,1867 **Kelly's Directory of Somersetshire** ,1883 *The Colonial Office List for ... Great Britain. Colonial Office*,1916 **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office,1995 **Library of Congress Subject Headings** Library of Congress,Library of Congress. Subject Cataloging Division,Library of Congress. Office for Subject Cataloging Policy,1995

Railway Towns David Brandon,2024-05-02 The railways changed the world They initiated a revolution in communications which continues to this day ever more profoundly influencing our lives They had an enormous economic and social impact in Britain not least with its demography Before 1914 places on the railway system felt they were connected to the wider world Those left off the system often feared for their future It was never actually as simple as that Some places

well served by railways prospered other did not Some with minimal or no railway connections managed to sustain themselves successfully Others became complex railway hubs perhaps with railway based engineering works extensive shunting yards and warehouses and a large requirement for labour Some companies built large numbers of dwellings for their workers and their families Sometimes they even built churches and parks for example Places of this character have often been described as railway towns but what is actually meant by this term In a pioneering attempt in book form to move towards an understanding of what constitutes a railway town the author considers a wide range of cities towns villages and other settlements and asks to what extent they owed their nineteenth and early twentieth century development to the railways This book should appeal to students of railway history British topography and the economic social and cultural impact of railways

Railway Record ,1852 **The Railway Times** ,1908 Herapath's Railway Magazine, Commercial Journal, and Scientific Review ,1845 **The Mining Journal, Railway and Commercial Gazette** ,1891
