Scenes from an Unfinished War Daniel P. Bolger, 1994-07 Discusses how South Korean and American forces battled North Korean special operations teams across the Korean peninsula during the Second Korean Conflict This conflict included small scale skirmishes along the demilitarized zone terrorist strikes the seizure of the USS Pueblo and several North Korean efforts to foment a viable insurgency A case study of a successful low intensity conflict Illustrated *Area Handbook Series*, 1994

North Korea Michael J. Seth, 2018-02-22 In this key textbook Michael J Seth offers an excellent synthesis of existing scholarship including a thorough examination of contemporary sources Seth

masterfully traces how North Korea gradually transformed itself from a Soviet style socialist state to an ultra nationalist dynastic one illuminating this journey with an engaging understanding of the political ideological economic and social forces at play Throughout Seth adds a rich dimension by placing North Korean history into broader global perspective and considering the implications for the future of the country With a helpful glossary and an exhaustive bibliography this clear and accessible overview is an ideal text for students of North Korean history and for anyone with an interest in the evolution of this uncommon nation

The Koreans Donald S Macdonald, 2018-02-19 In this new edition Donald Clark has thoroughly revised and updated Donald Macdonald's widely praised introduction to Korea describing and assessing the volatile and dramatic developments on the peninsula over the last five years Remaining true to Macdonald's original conception Clark has reworked the existing text from the perspective of the mid 1990s to take account of the enormous political and economic changes in South Korea the evolving relationship between North and South and the implications of North Korea's leadership transition and nuclear capability

North Korea on the Brink James Glyn Ford, Soyoung Kwon, 2007-11-20 North Korea's development and testing of nuclear weapons made headlines in the Western media but is the country really a threat to the rest of the world This accessible introduction examines the country's history and focuses on whether the threat is realistic or exaggerated by the US in order to gain international support for the controversial missile defence system It also shows what the EU can do to engage with North Korea and counterbalance the US policy of isolationism North Korea is struggling to survive in the face of US threats of pre-emptive action and regime change by developing its own Weapons of Mass Destruction For the EU the challenge is to resolve this stand-off providing North Korea with sufficient security guarantees to enable them to give up their nuclear weapons and enough assistance to enable the economic and social reforms that the country so desperately needs

Strategic Analysis Of U.S. Special Operations During The Korean Conflict Major Steve A. Fondacaro, 2015-11-06 This study analyzes the strategic effectiveness of special operations conducted by the Far East Command FECOM and the Central Intelligence Agency CIA in Korea during the Korean Conflict from 1950 to 1953 Each organization's effectiveness is determined by examining the areas of strategy organization and operations Special operations as defined in Joint Chiefs of Staff Publication Number 2 Unified Action Armed Forces UNAAF was the standard by which operations were selected for examination The study answers four questions 1 What were the UN Command strategic objectives within the Korean theater and how did these change 2 How these changing strategic objectives development and coordination of special operations objectives forces and headquarters 3 What did US special operations in Korea accomplish strategically 4 What conclusions can be drawn from US special operations forces effectiveness or ineffectiveness in Korea FECOM special operations were limited to partisan operations and psychological operations The partisans consisted of anti-communist North Koreans organized and led by US cadre beginning in January 1951 Psychological operations were conducted continuously from July 1950 by a separate staff element whose capabilities expanded dramatically during the

course of the conflict CIA operations within Korea consisted of intelligence gathering and special or covert activities controlled from headquarters in Japan CIA operations remained autonomous of FECOM control throughout the conflict The control issue was the source of bureaucratic conflict that inhibited operational coordination between FECOM and CIA throughout the conflict *Area Handbook Series: North Korea, A Country Study*, 1993 Talking to North Korea James Glyn Ford, 2018-09-20 Despite recent attempts at negotiation the attitudes of both Kim Jong un s regime and the West seem unchanged North Korea is still shrouded in mystery and there are no clear plans for the future Can we trust either side to bring about peace And if so how This provocative insider s account blasts apart the myths which paint North Korea as a rogue state run by a mad leader Informed by extraordinary access to the country s leadership Glyn Ford investigates the regime from the inside providing game changing insights which Trump and his administration have failed to do Acknowledging that North Korea is a deeply flawed and repressive state he nonetheless shows that sections of the leadership are desperate to modernise and end their isolation With chapters on recent developments including the Trump Kim summit Ford supports a dialogue between East and West whilst also criticising Trump s facile attempts Talking to North Korea provides a road map for averting a war in North East Asia that would threaten the lives of millions **Libya, a Country Study** American University (Washington, D.C.). Foreign Area Studies, 1979 **Catalog of Publications**, 1990 Publications Stocked by the Marine Corps (indexed by Distribution), 2001 *Arming the Two Koreas* Taik-Young Hamm, 2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Korea s military strength is partly a myth created by South Korea to justify a huge programme of rearmament **Country Profile**, 1994 **Korea's Twentieth-Century Odyssey** Michael E. Robinson, 2007-04-30 For more than half of the twentieth century the Korean peninsula has been divided between two hostile and competitive nation states each claiming to be the sole legitimate expression of the Korean nation The division remains an unsolved problem dating to the beginnings of the Cold War and now projects the politics of that period into the twenty first century Korea s Twentieth Century Odyssey is designed to provide readers with the historical essentials upon which to unravel the complex politics and contemporary crises that currently exist in the East Asian region Beginning with a description of late nineteenth century imperialism Michael Robinson shows how traditional Korean political culture shaped the response of Koreans to multiple threats to their sovereignty after being opened to the world economy by Japan in the 1870s He locates the origins of both modern nationalism and the economic and cultural modernization of Korea in the twenty years preceding the fall of the traditional state to Japanese colonialism in 1910 Robinson breaks new ground with his analysis of the colonial period tracing the ideological division of contemporary Korea to the struggle of different actors to mobilize a national independence movement at the time More importantly he locates the

reason for successful Japanese hegemony in policies that included and thus implicated Koreans within the colonial system He concludes with a discussion of the political and economic evolution of South and North Korea after 1948 that accounts for the valid legitimacy claims of both nation states on the peninsula

An Alternative Scenario for the Reunification of Korea Steve A.

Fondacaro, 1997 This paper predicts an alternate scenario to Korean reunification to those currently being discussed in and out of South Korea Much of what has been written discusses the demise of the present North Korean government along a spectrum of turbulence from gradual decay to violent implosion The predicted results also vary from peaceful absorption by the South Korean government to a war of desperation scenario precipitated by the decaying Northern regime in a last ditch effort to retain power This paper explores a scenario where the two Koreas end up as secondary players in the future of the Korean peninsula The primary regional actor to emerge will be China As the ascendant regional power China will shape events on the Korean Peninsula to fit its own future vision of Northeast Asia It is further proposed that this Chinese vision will seek to maintain the peaceful division of North and South Korea in the short term 10 to 20 years following the demise of the present North Korean government China is seen in this scenario as moving unilaterally on the basis of long standing agreements with North Korea into North Korea as the government implodes It is in the Chinese interest to prevent the uncontrolled rise of a new potentially powerful reunified Korean regional competitor Additionally China will seek to minimize United States influence in the region For obvious historical military and economic reasons the Japanese desire to maintain the geopolitical and economic status quo will cause them to play a supporting role in the Chinese effort This move together with its predictable control of the Spratly Islands oil and natural gas reserves an already powerful military and rapidly growing economy will put China in a position to much more effectively influence the future of the region
