Voice and Inversion Talmy Givón, 1994-01-01 This collection aims first to establish a structure independent language

independent definition of pragmatic voice and more specifically then a universal functional definition of inverse The grammar and pragmatic function of the four major voice constructions direct active inverse passive antipassive are surveyed using narrative texts from 14 languages Koyukon Athabascan Plains Cree Algonquian Chepang Tibeto Burman Squamish and Bella Coola Salish Sahaptin Sahaptian Kutenai isolate Surinam Carib Carib Spanish and Greek Indo European Korean Maasai Nilotic Cebuano and Karao Philippine The comparative quantified study of pragmatic voice functions tests the validity of a universal functional definition of voice and in particular of inverse The cross language comparison of grammatical structures that code the various voice functions then lays down the foundation for a non trivial cross language typology of inverse
