Olga Freidenbergs Works And Days:

Resilient Russian Women in the 1920s & 1930s Marcelline Hutton, 2015-07 The stories of Russian educated women peasants prisoners workers wives and mothers of the 1920s and 1930s show how work marriage family religion and even patriotism helped sustain them during harsh times The Russian Revolution launched an economic and social upheaval that released peasant women from the control of traditional extended families It promised urban women equality and created opportunities for employment and higher education Yet the revolution did little to eliminate Russian patriarchal culture which continued to undermine women's social sexual economic and political conditions Divorce and abortion became more widespread but birth control remained limited and sexual liberation meant greater freedom for men than for women The transformations that women needed to gain true equality were postponed by the poverty of the new state and the political agendas of leaders like Lenin Trotsky and Stalin

A History of Russian Literature Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie Sandler, 2018-04-13 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can

serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and personal Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular brings out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation

The Birth and Death of Literary Theory Galin Tihanov, 2019-07-30 Until the 1940s when awareness of Russian Formalism began to spread literary theory remained almost exclusively a Russian and Eastern European invention The Birth and Death of Literary Theory tells the story of literary theory by focusing on its formative interwar decades in Russia Nowhere else did literary theory emerge and peak so early even as it shared space with other modes of reflection on literature A comprehensive account of every important Russian trend between the world wars the book traces their wider impact in the West during the 20th and 21st centuries Ranging from Formalism and Bakhtin to the legacy of classic literary theory in our post deconstruction world literature era Galin Tihanov provides answers to two fundamental questions What does it mean to think about literature theoretically and what happens to literary theory when this option is no longer available Asserting radical historicity he offers a time limited way of reflecting upon literature not in order to write theory s obituary but to examine its continuous presence across successive regimes of relevance Engaging and insightful this is a book for anyone interested in theory s origins and in what has happened since its demise

Image and Concept Olga Freidenberg, 2006-03-07 First published in 1997 Image and Concept Mythopoetic Roots of Literature here finally available in English is devoted to the origins of Greek tragedy In it Freidenberg develops the notion that it was the very transition from thinking based on mythological images to the kind of thinking that makes use of formal logical concepts that resulted in the appearance of literature With the transition from mythological thinking to conceptual thought the content of mythological images became the texture of the new concepts The inherited mythological forms now were reinterpreted conceptually causalized ethicized generalized abstracted This reinterpretation in turn brought about poetic figurality Folkloric material began to be differentiated from the mythological images of the past into various disciplines such as religion philosophy ethics literature and art Yet differentiated and reinterpreted as it was the folkloric material remained formally preserved in

poetic image structure and plot **Persistent Forms** Ilya Kliger, Boris Maslov, 2015-12-14 Since the mid 1980s attempts to think history and literature together have produced much exciting work in the humanities Indeed some form of historicism can be said to inform most of the current scholarship in literary studies including work in poetics yet much of this scholarship remains undertheorized Envisioning a revitalized and more expansive historicism this volume builds on the tradition of Historical Poetics pioneered by Alexander Veselovsky 1838 1906 and developed in various fruitful directions by the Russian Formalists Mikhail Bakhtin and Olga Freidenberg The volume includes previously untranslated texts of some of the major scholars in this critical tradition as well as original contributions which place that tradition in dialogue with other thinkers who have approached literature in a globally comparatist and evolutionary historical spirit The contributors seek to challenge and complement a historicism that stresses proximate sociopolitical contexts through an engagement with the *longue durée* of literary forms and institutions In particular Historical Poetics aims to uncover deep historical stratifications and asynchronicities in which formal solutions may display elective affinities with other chronologically distant solutions to analogous social and political problems By recovering the traditional nexus of philology and history Persistent Forms seeks to reinvigorate poetics as a theoretical discipline that would respond to such critical and intellectual developments as Marxism New Historicism the study of world literature practices of distant reading and a renewed attention to ritual oral poetics and genre *The Cambridge Introduction to Mikhail Bakhtin* Ken Hirschkop, 2021-11-04 A concise readable and up to date introduction to Bakhtin which provides students with an accessible but sophisticated guide to his work **Fundamental Problems of the Sociology of Thinking** Konstantin Megreliдзе, 2022-10-24 Written at the height of the purges but unpublished for decades Megreliдзе's text is arguably the most significant erudite and wide ranging work of Marxist philosophy written in the USSR at the time Discussing the emergence and development of human consciousness from the origins of humanity to the rise of capitalism Megreliдзе discusses the major achievements of contemporary cognitive science sociology philosophy and linguistics in the light of the works of Marx and Engels that were being published at the time Far from the rigidities of official *diamat* the book provides an insight into the important debates in Soviet intellectual life that led to the works of figures such as Vygotsky and the Bakhtin Circle Leningrad Anna Reid, 2012-01-01 When Hitler attacked the Soviet Union in June 1941 he intended to capture Leningrad before turning on Moscow Soviet resistance forced him to change tactics with his forward troops only thirty kilometres from the city's historic centre he decided instead to starve it out Using newly available diaries and government records Anna Reid describes a city's descent into hell the breakdown of electricity and water supply subzero temperatures the consumption of pets joiner's glue and face cream the dead left unburied where they fell but also the extraordinary endurance bravery and self sacrifice despite the cruelty and indifference of the Kremlin **A History of Russian Literary Theory and Criticism** Evgeny Dobrenko, Galin Tihanov, 2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of Russian literary theory and

criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletklut futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti Semitism in the late Stalinist period During Khrushchev s Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism **Besieged Leningrad** Polina Barskova,2017-10-15

During the 872 days of the Siege of Leningrad September 1941 to January 1944 the city s inhabitants were surrounded by the military forces of Nazi Germany They suffered famine cold and darkness and a million people lost their lives making the siege one of the most destructive in history Confinement in the besieged city was a traumatic experience Unlike the victims of the Auschwitz concentration camp for example who were brought from afar and robbed of their cultural roots the victims of the Siege of Leningrad were trapped in the city as it underwent a slow horrific transformation They lost everything except their physical location which was layered with historical cultural and personal memory In *Besieged Leningrad* Polina Barskova examines how the city s inhabitants adjusted to their new urban reality focusing on the emergence of new spatial perceptions that fostered the production of diverse textual and visual representations The myriad texts that emerged during the siege were varied and exciting engendered by sometimes sharply conflicting ideological urges and aesthetic sensibilities In this first study of the cultural and literary representations of spatiality in besieged Leningrad Barskova examines a wide range of authors with competing views of their difficult relationship with the city filling a gap in Western knowledge of the culture of the siege It will appeal to Russian studies specialists as well as those interested in war testimonies and the representation of trauma **Pindar and the Emergence of Literature** Boris Maslov,2015-10-14

For much of Western history Pindar s work was recognized as the pinnacle of lyric poetry This book presents an introduction to different aspects of Pindar s art while demonstrating its importance for the coming into being of literature as it has been conceived of in the West
