**Dying Well** John Wyatt, 2018-06-21 We cannot choreograph our own death but we can die well This is a book for those who are facing death It is also for their relatives friends and carers John Wyatt looks at recent trends in dying He examines the art of dying a Christian tradition from the past We see opportunities for dying well and faithfully real world examples of personal growth and instances of reconciliation and personal healing in relationships On the other hand there are also challenges to face the fears and temptations that dying can bring We learn from Jesus example as we focus on his words from the cross The wonderful news is that we can look forward to a sure and steadfast hope the amazing hope of resurrection and its implications for our lives today **The Science of the Soul in Colonial New England** Sarah Rivett, 2011 Science of the Soul in Colonial New England When the Dead Rise Christian Livermore, 2021 A survey of the motif of the revenant showing how medieval themes and motifs persist today The proliferation of books and films about the undead those literally returning from the grave in modern popular culture has been commented on as a recent phenomenon but it is in fact a storytelling tradition going back more than a millennium It drew on and was influenced by Christian eschatology gathered momentum in medieval ecclesiastical chronicles such as those written by Caesarius of Heisterbach and then migrated into imaginative literature famously in John Lydgate's *Dance of Death* and art But why did revenant stories and imagery take such a hold in the Middle Ages And why has that fascination held on into today's world This book offers a history of these revenant narratives demonstrating how modern horror is haunted by past literature and exploring the motif of the risen dead as a focus of cultural anxiety and literary effort The author examines the long arc of revenant tales from antiquity and the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears and preoccupations the Middle Ages through the Reformation and into modernity tracing their uncanny similarities and laying bare the rich traditions of narrative theme motif supernatural belief and eschatological fears
