

PAKISTAN: The Economy of an Elitist State

Second Edition

Ishrat Husain

This insightful analysis into the prevailing economic situation in Pakistan has three distinguishing features. It is an exhaustive, analytical history of economic development in Pakistan during the last seventy years; it provides an explanation of Pakistan's economic performance in the political context, and compares it with other South Asian countries and with East Asia; it outlines for Pakistan an agenda of economic and social reforms based on a model of shared growth to see the country into the twenty-first century.

The main thrust of the book is that the respective roles of the state and the market have been reversed in the case of Pakistan, with the result that the benefits are reaped by the elite class only. This small minority continues to enjoy the unjust accumulation of wealth in the midst of widespread poverty and squalor. The author establishes that such a situation is socially and economically not sustainable.

Ishrat Husain is presently Adviser to the Prime Minister on Institutional Reforms and Austerity. During 2016–17, he was Public Policy Fellow at the Woodrow Wilson Center in Washington DC. He has served as Dean and Director, Institute of Business Administration (IBA), Karachi (2008–16); Chairman, National Commission for Government Reforms (2006–08); and Governor, State Bank of Pakistan (1999–2005). Dr Husain has also had a distinguished career at the World Bank for over two decades (1979–1999). He has a Master's in Development Economics from Williams College and a PhD in Economics from Boston University. He is a graduate of the Executive Development programme jointly sponsored by Harvard, Stanford, and INSEAD. Dr Husain has received the highest civilian awards, the Nishan-e-Pakistan (2016) and the Hilal-e-Imtiaz (2003). His other publications include *Governing the Ungovernable* (OUP 2018), *Economic Management in Pakistan 1999–2002* (OUP 2003), and *Pakistan: The Economy of an Elitist State* (OUP 1999).

Law, State and Inequality in Pakistan Muhammad Azeem,2017-07-02 Through a detailed historical and empirical account of post independence years this book offers a new assessment of the role of the judiciary in Pakistani politics Instead of seeing the judiciary as helpless or struggling against an authoritarian state it argues that the judiciary has been a crucial link in the creation of state and political inequality in Pakistan This rubs against the central role given to the judiciary in developing countries to fix the corrupt politicians and stubborn bureaucracies in the World Bank s Good Governance paradigm and rule of law initiatives It also challenges the contemporary legal and judicial discourse that extols the virtues of Public Interest Litigation While the book s core analysis is a critique of the contemporary liberal legal project it also adds to the critical tradition of social theory by linking political economy to a social theory of law The theoretical aspect of the study is applicable to any developing society whose judiciary is going through foreign sponsored rule of law judicial reforms

In Search of Prosperity Dani Rodrik, 2012-11-21 The economics of growth has come a long way since it regained center stage for economists in the mid 1980s Here for the first time is a series of country studies guided by that research The thirteen essays by leading economists shed light on some of the most important growth puzzles of our time How did China grow so rapidly despite the absence of full fledged private property rights What happened in India after the early 1980s to more than double its growth rate How did Botswana and Mauritius avoid the problems that other countries in sub Saharan Africa succumbed to How did Indonesia manage to grow over three decades despite weak institutions and distorted microeconomic policies and why did it suffer such a collapse after 1997 What emerges from this collective effort is a deeper understanding of the centrality of institutions Economies that have performed well over the long term owe their success not to geography or trade but to institutions that have generated market oriented incentives protected property rights and enabled stability However these narratives warn against a cookie cutter approach to institution building The contributors are Daron Acemoglu Maite Careaga Gregory Clark J Bradford DeLong Georges de Menil William Easterly Ricardo Hausmann Simon Johnson Daniel Kaufmann Massimo Mastruzzi Ian W McLean Lant Pritchett Yingyi Qian James A Robinson Devesh Roy Arvind Subramanian Alan M Taylor Jonathan Temple Barry R Weingast Susan Wolcott and Diego Zavaleta

Communism in Pakistan Kamran Asdar Ali, 2015-05-27 Pakistan today stands at a critical juncture in its short history of existence While much has been written about Pakistan little is known about Communism or left leaning politics in the country post Partition which played a key role in shaping Pakistani politics today Kamran Asdar Ali here presents the first extensive look at Pakistan's communist and working class movement The author critically engages with the history of Pakistan's early years while paying special attention to the rise and fall of the Communist Party of Pakistan CPP from Partition in 1947 to the aftermath of Bangladeshi independence in 1971 Since its formation in 1947 as a homeland for South Asian Muslims Pakistan has been a configuration of shifting alliances and competing political and social ideologies Pakistan has experienced three military takeovers and is plagued with geopolitical conflict from Kashmir to Baluchistan Waziristan and while these aspects of Pakistan make headlines in order to understand the complexities of these events it is vital to understand the state's relationship throughout history with its divergent political and ethnic voices One dominant feature of the state along with its emphasis on the Islamic nature of its polity has been the non resolution of its ethnic problem while the history of Pakistan is often viewed through the lens of unified Muslim nationalism the author here also explores the history of Pakistan's often tense relationship with its various ethnic groups Baluch Pathan Sindhis Punjabis and Bengalis Shedding light on a vital and little researched aspect of Pakistani history this book shows that military coups Islamic radicalization and terrorist activities do not constitute the sum total of Pakistan's history that it too has had a history that included the activities of communist intellectuals and activists

Righteous Demagogues Adnan Naseemullah, Pradeep Chhibber, 2024 Righteous Demagogues explores the causes dynamics and consequences of populist politics in South Asia and beyond It argues that populist mobilizations are rooted in crises of representation and populism is a symptom not an underlying cause of democratic malaise Populist leaders in framing their appeals evoke the moral contract that states are obligated to redress certain types of inequality and promise its restoration in ways that resonate with voters across lines of partisanship and social divisions leading party system change Depending on how broadly populist appeals resonate different types of populism emerge with consequences ranging from the rejection of populists to varying forms of democratic backsliding The book examines the dynamics of populist politics primarily through four cases in South Asia In the late 1960s Indira Gandhi in India and Zulfikar Bhutto in Pakistan effected reordering populist mobilizations on the left against the de facto oligarchic regimes of the Congress party and the Ayub Khan government mobilizing workers peasants and the nascent middle classes against widespread exclusion and inequity In the mid 2010s Narendra Modi and Imran Khan effected additive

populist mobilizations of the right mobilizing diverse middle classes across India and Pakistan respectively against perceived corruption and inequity The book applies the framework and typology to explain the causes dynamics and consequences of populism in Latin America Europe and the United States

Democratic Accountability and International Human Development Kamran Ali Afzal, Mark Considine, 2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic accountability extending beyond political democracy to also include bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development Combining cross country regression analysis with exemplary case studies from Pakistan India Botswana and Argentina the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states This book will be of great interest to postgraduate students and researchers in the fields of political economy public policy governance and development It also provides valuable insights for those working in the international relations field including inside major aid and investment organisations

framework of economic thought in the Islamic tradition pertaining to ethical philosophical and theological ideas this book provides a critique of modern Islamic economics as a hybrid economic system From the outset Sami Al Daghistani is concerned with the polyvalent methodology of studying the phenomenon of Islamic economic thought as a human science in that it nurtures a complex plentitude of meanings and interpretations associated with the moral self By studying legal scholars theologians and Sufis in the classical period Al Daghistani looks at economic thought in the context of Shar a s moral law Alongside critiquing modern developments of Islamic economics he puts forward an idea for a plural epistemology of Islam s moral economy which advocates for a multifaceted hermeneutical reading of the subject in light of a moral law embedded in a particular cosmology of human relationality metaphysical intelligibility and economic subjectivity
