Chronicle of the Horse ,1990-10 Community Pest Management in Practice Tanya M. Howard,Theodore R. Alter,Paloma Z. Frumento,Lyndal J. Thompson,2018-12-13 This book presents a collection of practitioner and community stories that reveal how invasive species management is a community issue that can spark community formation and collective action It combines the unique first person narratives of practitioners on the frontline of invasive species management in Australia with three case studies of community action for wild dog management across a range of geographical landscapes The book offers readers a new understanding of how communities are formed in the context of managing different species and how fundamental social and political processes can make or break landholders ability to

manage invasive species Using narrative analysis of practitioner profiles and community groups drawing lessons from real world practices and employing theories from community development rural sociology and collective action this book serves multiple functions it offers a teaching tool a valuable research contribution and a practitioner s field guide to pursuing effective community development work in connection with natural resource management wildlife management and environmental governance Irish Late Iron Age Equestrian Equipment in its Insular and Continental Context Rena

Maguire,2021-12-23 This is the first practical archaeological study of Irish Iron Age horsemanship The horse and associated equipment were very much at the heart of the social changes set in motion by contact with the Roman Empire the examination of the snaffles and bits allows us to bring the people of the Late Iron Age in Ireland into focus Gender and Equestrian Sport Miriam Adelman,Jorge Knijnik,2013-06-20 This volume brings together studies from various disciplines of the social sciences and humanities anthropology sociology cultural studies history and literary theory that shed light on the equestrian world as a historically gendered and highly dynamic field of contemporary sport and culture From high level international dressage and jumping polo and the turf to the rodeo world of the Americas and popular forms of equestrian sport and culture we are introduced to a range of issues that are played out at local and global national and international levels Students and scholars of gender culture and sport will find much of interest in this original look at contemporary issues such as engendered women s and men s identities subjectivities as equestrians representations of girls horses and the world of adventure in juvenile fiction the current feminization of particular equestrian activities and where boys and men stand in relation to this how broad forms of social inequality and stratification play themselves out within gendered equestrian contexts men and women and their relation to horses within the framework of current discussions on the relation of animals to humans which may include not only love and care but also exploitation and violence among others Singular contributions show how equestrian activities contribute to historical and current constructions of embodied femininities and masculinities reflecting a world that has been moving beyond the binaries while continuing to be enmeshed in their persistent and contradictory legacy *The Beginner's Guide to Show Jumping* Peter Churchill,1982 **Historical**

Practices in Horsemanship and Equestrian Sports Timothy Dawson,Anastasija Ropa,2022-11-01 New things are forgotten old things this rediscovery of the past is especially important in horsemanship and equestrian sports Despite advances in sciences and technology the physiologies and psychologies of the two principal agents the equid and the human have undergone relatively few changes since horse domestication The studies collected in this volume outline such essential and recurring challenges in equestrianism as gender issues equine identification the use of hyperflexion and groundwork in training as well as many others from prehistory to this day **Training for equestrian performance** Jane Williams,David Evans,2023-11-27 Training for equestrian performance is an essential guide for the modern equestrian competitor who wants to optimise their own and their horse s potential in training and competition or for the equine sports science student wanting

to understand the science of equestrian training Leading equestrian researchers and performance analysis experts bring together the fundamental scientific principles which underpin competition preparation for the horse and rider These include exercise physiology psychology conformation biomechanics and feeding for performance The book explores the principles of training and alternative training methods and how these principles translate to management of the equine athlete to extend careers and prevent injury occurring Suggestions for how to successfully develop training strategies and plans matched to short and long term training and competition goals are provided Developments in performance analysis techniques and equipment for the horse and rider independently and as a partnership are reviewed This enables the reader to select techniques and devise training regimes which can help them achieve their own competitive goals The book concludes by applying science to the practical requirements of a range of equestrian disciplines giving practical advice and explanations of how to use science and technology to improve fitness prevent injury and to achieve competition success Horse owners students veterinarians coaches and many other participants in equestrian sports will find new knowledge and perspectives to consider Training for equestrian performance will become a must have training companion for the modern equestrian who wants to leave nothing to chance in their competition preparation

Sports Hypnosis in Practice Joseph Tramontana,2011-06-10 This book offers new strategies and scripts for hypnotherapists sports counsellors and sports psychologists working with athletes to help them achieve their peak performance A major focus of the book is that the therapist does not necessarily need to be familiar with the sport or activity to serve as a mental coach to the athlete The athlete is instructed that the goal is not to improve the mechanics of their performance that is left up to their coaches but rather to help them to relax concentrate and focus so that they fulfill their maximum potential They learn not to let the mental side of their game trip up the physical side but rather to enhance it

Equestrian Cultures in Global and Local Contexts Miriam Adelman,Kirrilly Thompson,2017-06-13 This edited volume demonstrates the broader socio cultural context for individual human horse relations and equestrian practices by documenting the international value of equines socially culturally as subjects of academic study and as drivers of public

policy It broadens our understanding of the importance of horses to humans by providing case studies from an unprecedented diversity of cultures The volume is grounded in the contention that the changing status of equines reveals and moves us to reflect on important material and symbolic societal transformations ushered in by post modernity which affect local and global contexts alike Through a detailed consideration of the social relations and cultural dimensions of equestrian practices across several continents this volume provides readers with an understanding of the ways in which interactions with horses provide global connectivity with localized identities and vice versa It further discusses new frontiers in the research on and practice of equestrianism framed against global megatrends and local micro trends
