Rural Sociology In Canada:

Rural Sociology in Canada David A. Hay, G. S. Basran, 1992 Discussion of contemporary issues often overlooks the rural component of Canadian society The sixteen chapters written specifically for Rural Sociology in Canada emphasize the diversity of rural Canada and its farming fishing and northern resource communities in conjunction with such issues as the impact of modern technologies on rural industries populations and communities the environmental crisis in relation to agriculture practices and technologies and the impact of the Free Trade Agreement on rural industries The book is oriented to undergraduate and graduate students studying rural sociology as well as appealing to a wider audience interested in rural life in Canada today **Rural Canada** Satadal Dasgupta, 1988 *Rural Sociologists at Work* Johannes Hans Bakker, 2015-10-05 This collection of original chapters written by prominent social scientists elucidates the theory and practice of contemporary rural sociology The book applies lessons from the careers of sociologists and their field research endeavors covering a wide range of topics agricultural production processing and marketing international food security and rural development degradation of the bio physical environment across borders and the study of community family health and many other issues in an increasingly globalized world The authors candid accounts provide insight into possibilities for enhancing opportunity and equality and serving basic human needs **Rural Sociology (in the United States and Canada).** Thomas Lynn Smith, 1957 **A Chronological Summary of Papers, Reports and Publications in the Field of Rural Sociology and Socio-economics of the Economics Division, Canada Dept. of Agriculture** Canada. Department of Agriculture. Rural Sociology Unit, 1961 *Communities, Development, and Sustainability across Canada* John T. Pierce, Ann Dale, 2011-11-01 What is a sustainable community The pressing need to answer this simple question is what prompted John Pierce and Ann Dale to gather the essays in this volume *Communities Development and Sustainability across Canada* is a timely synthesis of work on how Canadian communities can achieve sustainable development It bridges the gap between theory and praxis and brings together academics policy makers and community activists all of whom have argued for increased local participation in sustainable community development Communities have become the weak link in efforts to refashion relations between the environment and the economy The goal of this book is not simply to describe problems but also to suggest answers not simply to offer theory but also to promote action so that Canadian communities can better achieve sustainable development The twelve essays are organized into four sections Vision Connections Action and Assessing Progress The first and last sections discuss local sustainable development within the context of increasing globalization The second section approaches sustainable development from the perspective of social evolution and urban systems The third section the heart of the book is comprised of three community case studies an assessment of the Pacific salmon fishery and four general discussions of sustainable development The conclusion reiterates the need to make communities stronger links in sustainable development The message of *Communities Development and Sustainability across Canada* is clear it is time for

communities themselves to act if they are to achieve sustainable development This provocative and persuasive book will prove to be a valuable guide to taking the first steps

New Directions in Saskatchewan Public Policy David McGrane,2011 In this new scholarly compilation by David P

McGrane established and emerging trends in Saskatchewan public policy are the foundation for setting new directions for the province in the 21st century In what direction should Saskatchewan be headed in the 21st century To answer this question academics from various disciplines at the University of Regina and University of Saskatchewan have come together to produce *New Directions in Saskatchewan Public Policy* the first edited book exclusively devoted to public policy in the province with chapters discussing taxation immigration agriculture urban affairs poverty reduction the social economy labour aging Aboriginal public administration and climate change The authors provide an analysis and description of the current policies of the Wall government and also look back to explore what the Romanow and Calvert governments did in these areas The overarching theme of the book is that despite the province's robust economic growth significant public policy challenges remain for the Saskatchewan provincial government The lesson is that economic growth does not magically solve entrenched societal problems and that economic prosperity will dissipate if worrisome social trends are left unchecked While many scholarly books shy away from prescription the authors of this book include sections in their chapters that set out new directions for policy development As such the book not only contains solid analysis of the present policy situation but also offers concrete ideas for future policy makers
