Sevastopol On Photographs Of War:

Sevastopol William Allen,1997 **Sevastopol's Wars** Mungo Melvin CB OBE,2017-05-18 Sevastopol's Wars is the first book in any language to cover the full history of Russia's historic Crimean naval citadel from its founding through to the current tensions that threaten the region Founded by Catherine the Great the maritime city of Sevastopol has been fought over for centuries Crucial battles of the Crimean War were fought on the hills surrounding the city and the memory of this stalwart defence inspired those who fruitlessly battled the Germans during World War II Twice the city has faced complete obliteration yet twice it has risen phoenix like from the ashes In this groundbreaking volume award winning author Mungo Melvin explores how Sevastopol became the crucible of conflict over three major engagements the Crimean War the Russian Civil War and World War II witnessing the death and destruction of countless armies yet creating the indomitable spirit of Sevastopol By weaving together first hand interviews detailed operational reports and battle analysis Melvin creates a rich tapestry of history **Crimea in War and Transformation** Mara Kozelsky,2019 Crimea in War and Transformation is the first exploration of the civilian experience during the Crimean War to appear in English Beginning with Russian mobilization in 1852 and lasting through demobilization in 1857 the conflict devastated the peoples and landscapes of Crimea as well as the volatile southern borderlands of the Russian Empire leading to the largest war recovery program yet undertaken by the Russian government **Artillery Warfare, 1939-1945** Simon Forty,Jonathan Forty,2020-11-25 From mountain warfare with guns on mules to V2 rockets and everything between makes it well worth a place on anyone's reference shelf Clash of Steel It is said that artillery won the Second World War for the Allies that Soviet guns wore down German forces on the Eastern Front negating their superior tactics and fighting ability and that the accuracy and intensity of the British and American artillery was a major reason for the success of Allied forces in North Africa from El Alamein in Italy and Normandy and played a vital role in the battles of 1944 and 1945 Yet the range of weapons used is often overlooked or taken for granted which is why this highly illustrated history by Simon and Jonathan Forty is of such value They stress the importance of artillery on every front and analyze how artillery equipment training and tactical techniques developed during the conflict The selection of wartime photographs many from east European sources and the extensive quotations from contemporary documents give a graphic impression of how the guns were used on all sides The photographs emphasize the wide range of pieces employed as field anti-aircraft and anti-tank artillery without forgetting self propelled guns coastal and other heavyweights and the development of rockets The authors offer a fascinating insight into the weapons that served in the artillery over seventy years ago Superbly illustrated this is testament to the courage and skills of extraordinary men in the execution of their duty An amazing book Books Monthly **Blackwood's Magazine** ,1909 **The Victorians and Edwardians at War** John Hannavy,2012-09-20 By the time the first photographs were taken at war in the late 1840s the idea that the camera cannot lie was already firmly embedded in the Victorian psyche Truthful in a way the work of the war artist

could never be despite the initially long exposures and cumbersome equipment cameras have been used to document war ever since the celebrated photographs of Roger Fenton in the Crimea Through a rich selection of images many of them never before published this book tells the story of the photographers who chronicled Britain's Victorian and Edwardian wars and those who fought in them

First War Photos Michael Davis, AI, 2025-02-26 First War Photos explores the dawn of war photography examining how early photographic technology captured 19th century warfare and shaped public perception It delves into the challenges faced by pioneers like Roger Fenton during the Crimean War and Mathew Brady during the American Civil War revealing how their images despite technical limitations brought the battlefield to the home front These first war photos though sometimes staged marked a significant shift in war reporting The book investigates the evolution of photographic processes from daguerreotypes to wet plate collodion and their impact on documenting military history It highlights how these images altered the relationship between the public and armed conflict Through meticulous examination of primary sources and photographic analysis the book progresses from an introduction covering photography's pre war state to chapters focusing on specific conflicts and photographers culminating in a conclusion assessing the long term impact and ethical implications of early war photography

camera was used to impose order on subject populations in Africa and Asia and to generate propaganda for the public in Europe where a visual economy of violence was rapidly taking shape At the same time it reveals how photographs could escape the intentions of their creators offering a means for colonial subjects to push back against oppression **The**

People's Wars Mark Hewitson, 2017-01-26 How did ministers journalists academics artists and subjects in the German lands imagine war during the nineteenth century The Napoleonic Wars had been the bloodiest in Europe's history directly affecting millions of Germans yet their long term consequences on individuals and on politics are still poorly understood This study makes sense of contemporaries' memories and histories of the Revolutionary and Napoleonic campaigns within a much wider context of press reportage of wars elsewhere in Europe and overseas debates about military service and the reform of Germany's armies revolution and counter revolution and individuals' experiences of violence and death in their everyday lives For the majority of the populations of the German states wars during an era of conscription were not merely a matter of history and memory rather they concerned subjects' hopes fears and expectations of the future This is the second volume of Mark Hewitson's study of the violence of war in the German lands during the nineteenth and twentieth centuries It investigates the complex relationship between military conflicts and the violent acts of individual soldiers In particular it considers the contradictory impact of pacification in civilian life and exposure to increasingly destructive technologies of killing during war time This contradiction reached its nineteenth century apogee during the wars of unification leaving an ambiguous imprint on post war discussions of military conflict Image, 1974 **A Photographic History of Airborne**

Warfare, 1939-1945 Simon Forty, Jonathan Forty, 2022-01-12 On 10 May 1940 German Fallschirmjäger stormed the Dutch fort of Eben Emael south of Maastricht The brilliantly executed operation was the first signal success by airborne troops in the Second World War and it made the military world sit up and take notice Improved parachutes and the creation of gliders that could carry troops meant that assault forces could be dropped or landed behind enemy lines This was a significant new tactic which had a dramatic impact on several of the key campaigns and it is the subject of Simon and Jonathan Forty's in depth highly illustrated history They tell the story of the development of airborne forces how they were trained and equipped and how they were landed and put into action in every theatre of the global conflict The results were mixed German airborne forces were victorious on Crete but the cost was so great that Hitler vowed never to use them in the same way again The Allies saw things differently After Crete they built up elite units who would play important roles in later battles in Normandy for example where the British 6th Airborne Division took vital bridges prior to the D Day landings These are just two examples of the many similar operations on the Western and Eastern Fronts and in the Pacific which are covered in this wide ranging book It offers the reader a fascinating insight into airborne warfare over seventy years ago The Crimean War

Clive Ponting, 2011-02-15 The Crimean War is full of resonance not least the Charge of the Light Brigade the Siege of Sevastopol and Florence Nightingale at Scutari with her lamp In this fascinating book Clive Ponting separates the myths

from the reality and tells the true story of the heroism of the ordinary soldiers often through eye witness accounts of the men who fought and those who survived the terrible winter of 1854 55 To contemporaries it was The Great War with Russia fought not only in the Black Sea and the Crimea but in the Baltic the Arctic the Pacific and the Caucasus Ironically Britain's allies were France her traditional enemy ably commanded from home by Napoleon III himself and the Muslim Ottoman Empire widely seen as an infidel corrupt power It was the first of the modern wars using rifles artillery trench systems steam battleships telegraph and railways yet the British soldiers wore their old highly coloured uniforms and took part in their last cavalry charge in Europe There were over 650 000 casualties Britain was unable fully to deploy her greatest strength her Navy while her Army was led by incompetent aristocrats The views of ordinary soldiers about Raglan Cardigan and Lucan make painful reading *All the World's Fighting Ships* Frederick Thomas Jane, 1920
