Intergovernmental Management for the 21st Century Timothy J. Conlan, Paul L. Posner, 2009-11-01 A Brookings Institution Press and the National Academy of Public Administration publication America's complex system of multi-layered government faces new challenges as a result of rapidly changing economic, technological, and demographic trends. An aging population, economic globalization, and homeland security concerns are among the powerful factors testing the system's capacity and flexibility. Major policy challenges and responses are now overwhelmingly intergovernmental in nature, and as a result, the fortunes of all levels of government are more intertwined and interdependent than ever before. This volume, cosponsored by the National Academy of Public Administration (NAPA), defines an agenda for improving the performance of America's intergovernmental system. The early chapters present the current state of practice in intergovernmental relations, including discussion of trends toward centralization, devolution, and other power-sharing arrangements. The fiscal underpinnings of the system are analyzed along with the long-term implications of current trends in financing at all levels. The authors identify the principal tools used to define intergovernmental management: grants, mandates, preemptions, and discussing emerging models and best practices in the design and management of those tools. In *Intergovernmental Management for the 21st Century*, these crosscutting themes are applied to critical policy areas where intergovernmental management and cooperation are essential, such as homeland security, education, welfare, health care, and the environment. It concludes with an authoritative assessment of the system's capacity to govern, oversee, and improve. Contributors include Jocelyn Johnston (American University), Shelley Metzenbaum (University of Maryland), Richard Nathan (SUNY at Albany), Barry Rabe (University of Michigan), Beryl Radin (American University), Alice Rivlin (Brookings Institution), Ray Sheppach (National Governors' Association), Frank Shafroth (George Mason University), Troy Smith (BYU Hawaii), and Carl Stenberg (University of Nor

Subcommittee on Health, 2004 The Future of Disability in America Institute of Medicine, Board on Health Sciences Policy, Committee on Disability in America, 2007-09-24 The future of disability in America will depend on how well the U.S. prepares for and manages the demographic, fiscal, and technological developments that will unfold during the next two to three decades. Building upon two prior studies from the Institute of Medicine—the 1991 Institute of Medicine's report *Disability in America* and the 1997 report *Enabling America: The Future of Disability in America*—examines both progress and concerns about continuing barriers that limit the independence, productivity, and participation in community life of people with disabilities. This book offers a comprehensive look at a wide range of issues, including the prevalence of disability across the lifespan, disability trends, the role of assistive technology, barriers posed by health care and other facilities with inaccessible buildings, equipment, and information formats, the needs of young people moving from pediatric to adult health care, and of adults experiencing premature aging and secondary health

problems selected issues in health care financing e g risk adjusting payments to health plans coverage of assistive technology and the organizing and financing of disability related research The Future of Disability in America is an assessment of both principles and scientific evidence for disability policies and services This book s recommendations propose steps to eliminate barriers and strengthen the evidence base for future public and private actions to reduce the impact of disability on individuals families and society

The Politics of Medicaid Laura Katz Olson,2010-06-02 Examining the social political and economic factors that have shaped Medicaid the author of *The Political Economy of Aging The State Private Power and Social Welfare* helps readers understand the powerful interests that cause costs to swell and hold elected officials hostage

Medicaid Politics Frank J. Thompson,2012-09-19 Medicaid one of the largest federal programs in the United States gives grants to states to provide health insurance for over 60 million low income Americans As private health insurance benefits have relentlessly eroded the program has played an increasingly important role Yet Medicaid s prominence in the health care arena has come as a surprise Many astute observers of the Medicaid debate have long claimed that a program for the poor is a poor program prone to erosion because it serves a stigmatized politically weak clientele Means tested programs for the poor are often politically unpopular and there is pressure from fiscally conservative lawmakers to scale back the 350 billion per year program even as more and more Americans have come to rely on it For their part health reformers had long assumed that Medicaid would fade away as the country moved toward universal health insurance Instead Medicaid has proved remarkably durable expanding and becoming a major pillar of America s health insurance system In *Medicaid Politics* political scientist Frank J Thompson examines the program s profound evolution during the presidential administrations of Bill Clinton George W Bush and Barack Obama and its pivotal role in the epic health reform law of 2010 This clear and accessible book details the specific forces embedded in American federalism that contributed so much to Medicaid s growth and durability during this period It also looks to the future outlining the political dynamics that could yield major program retrenchment

Institutions of American Democracy Joel D. Aberbach,Mark A. Peterson,2005-10-27 Presents a collection of essay that provide an examination of the Executive branch in American government explaining how the Constitution created the executive branch and discusses how the executive interacts with the other two branches of government at the federal and state level
