Look Of Things Poetry And Vision Around 19:

Adorno and Philosophical Modernism Roger S. Foster, 2016-08-29 Adorno and Philosophical Modernism The Inside of Things offers an original interpretation and vigorous defense of Theodor Adorno's idea of philosophy as the practice of what Roger Foster calls philosophical modernism Adorno's philosophical writings from the early 1930s to the mature works of the late 1960s are deeply informed by a distinctively modernist vision of human experience This book seeks to establish that Adorno's unique and lasting contribution to philosophy consists in his sustained and rigorous development of this modernist vision into an encompassing practice of philosophical interpretation The essential features of this vision can be discerned in all of Adorno's major writings in philosophy social theory and aesthetics Its defining element is the idea of a pattern underlying ordinary experience which although not directly accessible can be disclosed by the reconstructive work of philosophical or literary language This vision Foster argues can be discerned in the major works of literary modernism including Woolf Proust and Musil as well as in the interpretive technique of psychoanalysis developed by Sigmund Freud The importance of Adorno's contribution to twentieth century philosophy can only be fully appreciated by understanding how he developed this vision into an overarching practice of philosophical interpretation that furnished a coherent and profound response to the decay of experience afflicting late modern societies In this book Foster expounds that interpretive practice exploring its ramifications and in particular its relation with literary modernism and places it in critical dialogue with alternative philosophical responses

The Book as Artefact, Text and Border Anne Mette Hansen, 2005 Books do not just contain texts books themselves are cultural artefacts which convey many meanings in their own right meanings which interact with the texts they contain Awareness of the many significances of books as cultural and textual objects reshapes the traditional disciplines of textual theory analytic bibliography codicology and palaeography while the advent of electronic books and digital methods for representing print books is introducing a new dimension to our understanding Seven essays in this volume ranging over medieval Portuguese and Swedish manuscripts eighteenth century Icelandic editions Australian playtexts Thackeray and Anita Brookner and Stefan George consider these questions from the broad perspective of textual scholarship Texts may exist on the borderland of word and not word or they may spring from borderlands of nation or culture or they may be considered from the margins of neighbouring disciplines So readers must set the texts within contexts to see the play of text against border Essays in this volume explore different texts against varying backgrounds Pound's Cantos Joyce's Ulysses Trollope's An Eye for an Eye Woolf's The Waves while essays by McGann and Lernout argue the dimensionality of text on the intersection of print and digital media Implicit in all these essays is the contention that textual scholarship must influence literary interpretation Two final essays focus directly on this in the cases of Melville's Moby Dick and Emily Dickinson's late fragments An extensive reviews section completes this volume

Sensory Experiments Erica Fretwell, 2020-09-14 In Sensory Experiments Erica Fretwell excavates the nineteenth century science of psychophysics and

its theorizations of sensation to examine the cultural and aesthetic landscape of feeling in nineteenth century America Fretwell demonstrates how psychophysics a scientific movement originating in Germany and dedicated to the empirical study of sensory experience shifted the understandings of feeling from the epistemology of sentiment to the phenomenological terrain of lived experience Through analyses of medical case studies spirit photographs perfumes music theory recipes and the work of canonical figures ranging from Kate Chopin and Pauline Hopkins to James Weldon Johnson and Emily Dickinson Fretwell outlines how the five senses became important elements in the biopolitical work of constructing human difference along the lines of race gender and ability In its entanglement with social difference psychophysics contributed to the racialization of aesthetics while sketching out possibilities for alternate modes of being over and against the figure of the bourgeois liberal individual Although psychophysics has largely been forgotten Fretwell demonstrates that its importance to shaping social order through scientific notions of sensation is central to contemporary theories of new materialism posthumanism aesthetics and affect theory

Flint on a Bright Stone Kirsten Blythe Painter, 2006 *Flint on a Bright Stone* closes a significant gap in the history of Modernist poetry by identifying the existence of Tempered Modernism an international phenomenon exemplified by Akhmatova Rilke H D and Williams and characterized by small poems written with precision restraint simplicity equilibrium and hardness

Schubert in the European Imagination Scott Messing, 2006 The concept of Schubert as a feminine type began in 1838 This work examines the historical reception of Franz Schubert as conveyed through the gendered imagery and language of 19th and early 20th century European culture The figures discussed include Musset Sand Nerval Maupassant George Eliot and others

Miniature Metropolis Andreas Huyssen, 2015-04-06 Andreas Huyssen explores the history and theory of metropolitan miniatures short prose pieces about urban life written for European newspapers His fine grained readings open vistas into German critical theory and the visual arts revealing the miniature to be one of the few genuinely innovative modes of spatialized writing created by modernism

The Technological Unconscious in German Modernist Literature Larson Powell, 2008 Even after the end of modernism and postmodernism the grandiose fantasies of artifice and self reference that have informed so much modernist literature still resonate in the social constructivism of current literary and cultural theory in the idea that we can perform or construct identities or social roles without external constraint as if we had consumer choice of self Larson Powell s book posits nature as a limit to such fantasies redefining aesthetic modernity s conception of and relation to nature and therefore its relation to reality He shows how nature no longer the idealized maternally coded Utopia of the Romantics becomes the trace of specific political sexual and technological traumas The book s four chapters center on the representation of nature in German prose and especially poetry by Rainer Maria Rilke Gottfried Benn Bertolt Brecht and Alfred Döblin from the years 1900 to 1945 while making reference to other literatures as well Powell s term the Technological Unconscious refers to a point of intersection between psychoanalysis and social and scientific theories of modernism and also to the philosophical mediation

between history and nature a motif important from Kant to Adorno Powell critiques the tendency toward jargon of an often merely rhetorical theory while continuing to develop the philosophical and conceptual inheritance of Continental traditions He analyzes in connection with the works treated the conceptions of subject and system in the theories of Adorno Luhmann and Lacan and their relation to their complement nature The Technological Unconscious is thus an important polemical intervention both in the debates over interdisciplinarity and in those between eclectic culturalist theories such as New Historicism and postcolonialism on the one hand and systems theory and psychoanalysis on the other Book Jacket **Sense and Creative Labor in Rainer Maria Rilke's Prose Works** Nicholas Carroll Reynolds, 2021-08-06 This book is an investigation of the role of creative labor and the five senses in Rainer Maria Rilke's prose works including his Primal Sound essay the Stories of God The Notebooks of Malte Laurids Brigge and his monograph on Auguste Rodin It is about several protagonists quest to achieve creative labor by reconnecting spirit or the unconscious to the hand There are many difficulties in the way however illustrated by Rilke's essays tales and monographs In the process of overcoming these impediments the five senses are expanded and refined Rilke's characters undergo a transformation that not only allows them to do true creative labor but also brings them into a new relationship with themselves the world around them and other people Nicholas Carroll Reynolds received his PhD at the University of Oregon USA He has authored several articles on philosophy and literature and has worked as an editor and translator He is currently employed at Trinity University in San Antonio Texas USA where he teaches in the German Philosophy and First Year Experience programs as well as in Trinity's Study abroad program in Berlin Germany **Milton on Film** Eric C. Brown, 2015-04-13 In January 2012 shooting was set to begin in Sydney Australia on the Hollywood backed production of Milton's Paradise Lost with Oscar nominee Bradley Cooper cast as Satan Yet just two weeks before the start of production Legendary Pictures delayed the project reportedly due to budgetary concerns and soon the company had suspended the film indefinitely Milton scholar Eric C Brown who was then serving as a script consultant for the studio sees his experience with that project as part of a long and perplexing story of Milton on film Indeed as Brown details in this comprehensive study Milton's place in the popular imagination and his extensive influence upon the cinema in particular has been both pervasive and persistent Bibliographic Index, 2007 *Forthcoming Books* Rose Army, 2003-04 **Monatshefte**, 2007 *Genre*, 2003 University of North Carolina Studies in the Germanic Languages and Literatures, 2004 Egon Schiele Egon Schiele, 2005 The Neue Galerie in New York holds the largest collection of works by Egon Schiele outside Europe All of the paintings and drawings from their magnificent collection are included in this sumptuously illustrated book In addition to presenting superb reproductions of more than 150 paintings and drawings this monograph traces the history of Schiele's reception in the American art world It offers fascinating background information about Schiele's collectors promoters critics and followers as well as the exhibitions public acquisitions publications and other projects relating to the artist that have taken place in the United States Essays on Schiele's life in

Austria the lost Schiele collections and the censorship of the artist during and after his lifetime complete this comprehensive volume which is sure to remain a valuable work of reference for many years to come *Berlin's Forgotten Future* Matt Erlin, 2004 Through an analysis of the works of the Berlin Aufklärer Friedrich Gedike Friedrich Nicolai G E Lessing and Moses Mendelssohn Matt Erlin shows how the rapid changes occurring in Prussia's newly minted metropolis challenged these intellectuals to engage in precisely the kind of nuanced thinking about history that has come to be seen as characteristic of the German Enlightenment The author's demonstration of Berlin's historical theoretical significance also provides perspective on the larger question of the city's impact on eighteenth century German culture Challenging the widespread idea that German intellectuals were anti urban the study reveals the extent to which urban sociability came to be seen by some as a problematic but crucial factor in the realization of their Enlightenment aims **Reading Reality** E. Thomas

Finan, 2021-02-03 In the early 1800s American critics warned about the danger of literature as a distraction from reality Later critical accounts held that American literature during the antebellum period was idealistic and that literature grew more realistic after the horrors of the Civil War By focusing on three leading American authors Ralph Waldo Emerson Walt Whitman and Emily Dickinson *Reading Reality* challenges that analysis Thomas Finan reveals how antebellum authors used words such as real and reality as key terms for literary discourse and claimed that the real was in fact central to their literary enterprise He argues that for many Americans in the early nineteenth century the real was often not synonymous with the physical world It could refer to the spiritual the sincere or the individual's experience He further explains how this awareness revises our understanding of the literary and conceptual strategies of American writers By unpacking antebellum senses of the real Finan casts new light on the formal traits of the period's literature the pressures of the literary marketplace in nineteenth century America and the surprising possibilities of literary reading **William Faulkner** Daniel J. Singal, 1997

Through detailed analyses of individual texts from the earliest poetry through *Go Down Moses* Singal traces Faulkner's attempt to liberate himself from the powerful and repressive Victorian culture in which he was raised by embracing the Modernist culture of the artistic avant garde Most important it shows how Faulkner accommodated the conflicting demands of these two cultures by creating a set of dual identities one that of a Modernist author writing on the most daring and subversive issues of his day and the other that of a southern country gentleman loyal to the conservative mores of his community It is in the clash between these two selves Singal argues that one finds the key to making sense of Faulkner
