Lookout Cartridge:

Lookout Cartridge Joseph McElroy, 2003-11-25 With Lookout Cartridge Joseph McElroy established a reputation as one of contemporary fiction's foremost innovators and deft observers into the fissures of modern society. It is a novel of dazzling intricacy absorbing suspense and the highest ambition to redeem the great claim of paranoia on the American psyche. In trying to figure out just who is so threatened by an innocent piece of cinema verité filmed in collaboration with a friend Cartwright finds himself at the heart of a mystery stretching from New York and London to Corsica and Stonehenge. With each new fact he gathers both the intricacy of the syndicate arrayed against him and what his search will cost him become alarmingly clear. **Writing and Destablization in Joseph McElroy's Lookout Cartridge** Isabelle Johnston, 1998

Scenes of Nature, Signs of Men Tony Tanner, 1989-08-25 This book is about the relationship of the American writer to his land and language to the scene and the sign to the natural landscape and the inscriptions imposed upon it by men. Among the questions considered in the first section of the book are how does American Romantic writing differ from European what are the peculiar problems faced by the American artist and what roles does he adopt to tackle them what kind of writing results when authors as different as Henry Adams and Mark Twain lament the vanishing of an earlier America or when Adams and Henry James review their complex relationship to their homeland or when W D Howells and Stephen Crane seek to define their themes in a specifically American setting. The second section of the book examines similar concerns in a number of contemporary writers notably Thomas Pynchon John Barth Donald Barthelme John DeLillo and William Gass. The Art of Excess Tom LeClair, 1989 Topologies of Fear in Contemporary Fiction Scott McClintock, 2015-07-21 The central concern of the book is the impact of global terror networks and state counterterrorism on twentieth century fiction. A unique contribution of this book is the comparative approach as opposed to the single author focus of most of the edited collections on terrorism in literature. Information Multiplicity John Johnston, 1998-05-08 In Information Multiplicity Johnston describes how fractalized realism has redefined thought itself from the High Modernist stream of consciousness into what the machine philosopher Daniel Dennett refers to as multiple drafts or circuits operating concurrently in the human brain. In a series of close readings Johnston traces how such a viral influx of information into human consciousness has been replicated in works by Thomas Pynchon *Gravity's Rainbow* and *Vineland* Joseph McElroy *Lookout Cartridge* William Gaddis *JR* Don DeLillo *Libra* and William Gibson *Neuromancer*. **Beyond Suspicion** Marc Chenetier, 1996-01-29 Selected by *Choice* magazine as an Outstanding Academic Book for 1996. The A to Z of Postmodernist Literature and Theater Fran Mason, 2009-07-23 The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and theater and the variety of forms that have been produced. It contains a list of acronyms a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries on individual writers important aesthetic practices significant texts and important movements and ideas that have created a variety of literary approaches.

within the form By placing these concerns within the historical philosophical and cultural contexts of postmodernism this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty first centuries operates Book Jacket **Constructing Postmodernism** Brian McHale, 2012-11-12 Brian McHale provides a series of readings of a wide range of postmodernist fiction from Eco's Foucault's Pendulum to the works of cyberpunk science fiction relating the works to aspects of postmodern popular culture Historical Dictionary of Postmodernist Literature and Theater Fran Mason, 2016-12-12 The main aim of the book has been to include writers movements forms of writing and textual strategies critical ideas and texts that are significant in relation to postmodernist literature In addition important scholars journals and cultural processes have been included where these are felt to be relevant to an understanding of postmodernist writing This second edition of Historical Dictionary of Postmodernist Literature and Theater contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on postmodernist writers the important postmodernist aesthetic practices significant texts produced throughout the history of postmodernist writing and important movements and ideas that have created a variety of literary approaches within the form This book is an excellent access point for students researchers and anyone wanting to know more about the postmodernist literature and theater
