Peter Bayley,2011-08-11 This 1980 text was the first full length study of seventeenth century pulpit oratory since 1863 and the first to treat both Catholic and Protestant preaching The first part opens with a general discussion on the sermon as a literary form followed by a survey of ideas on preaching and the practical arts of preaching circulating in late Renaissance Europe Of the central chapters on the sermons themselves two are concerned with the style and complex formal structures of the sermons while two examine in turn the major themes of illusion and nature and the imagery associated with them The second part is a descriptive catalogue of extant sermons and some funeral orations of the period which provided a great deal of information never previously collected The book made a significant contribution both to the study of a neglected period of French literature the Baroque and to comparative studies of the sermon The History of Our Lord as Exemplified in Works of Art Anna Jameson,1864 **A Reexamination of Lord Rayleigh's Data on the Airglow 5577 A[OI] Emission** G. J. Hernandez,S. M. Silverman,1963 Rayleigh s published data on the airglow green line covering an entire sunspot cycle have been little used because of the manner of presentation These data have been reexamined and the results for the different stations put on a common basis and converted to present day units The assumptions and constants used by Rayleigh in his absolute calibration have been carefully checked with a resulting small change in the absolute intensity that he had reported Since Rayleigh worked with wide bandpass filters a discussion of current knowledge of the night sky continuum and its correlation with the green line has also been included Author **The history of our Lord, as exemplified in works of art, commenced by mrs.
