Reflections in Hydrology Nathan Buras,1997-01-23 Published by the

American Geophysical Union as part of the Special Publications Series In the early 1980s the Department of Hydrology and Water Resources at the University of Arizona started a tradition an annual public lecture to perpetuate the memory of one of its most original thinkers who passed away at an early age Chester C Kisiel At that time the department was quite young a little over ten years old and so was the University of Arizona not quite a century old The overall atmosphere was extremely stimulating faculty members and students were curious and excited wishing to learn and understand more about the natural phenomena that transform precipitation into water and the possible development of regional waters for human uses The preparation and delivery of these lectures were entrusted by the department to outstanding scientists in the fields of hydrology and water resources thus attaining a double objective On the one hand the lectures became salient points on a time trajectory when specific facets of the broad agenda of scientific issues studied in the department were brought to the limelight of a public discourse On the other hand the lectures also provided opportunities for reflection on contemporary problems and on the approaches for their study and analysis

The DC-10 Case John H. Fielder,1992-01-01 Designed as a

textbook for courses in ethics this book provides the material needed to understand the accidents in which more than 700 people were killed accidents that many believe were the result of unethical actions and inactions by individuals organizations and government agencies An introduction to ethical analysis and discussions of the ethical responsibilities involved are also provided The case study offers material for a sustained inquiry into every level of ethical responsibility reflecting the rich ethical complexity of actual events The DC 10 Case presents these issues through a collection of original and published articles excerpts from official accident reports congressional hearings and other writing on the DC 10 The authors allow the readers to examine the ethical issues of airline safety as they actually occur taking account of the circumstances in which they arise
