Modern Management and Machiavelli Richard Hobart Buskirk,1975 **Modern Management and Machiavelli**
Richard H. Buskirk,1975-11-01 *Machiavelli, Marketing, and Management* Phil Harris,Andrew Lock,Patricia Rees,2000
This text aims to provide insight into the meaning and interpretation of Machiavelli and his works for management marketing and political thought and to highlight their relevance to the manager today Ancient Wisdom for Modern Management Dr Ralf Lisch,2012-12-28 Machiavelli lives 500 years after Niccol Machiavelli has written The Prince this classic of the mechanisms behind success in management has not lost its relevance In an intriguing and inspiring interplay of quotes interpretations and examples Dr Ralf Lisch develops Machiavelli s most famous work into a practical guide providing Ancient Wisdom for Modern Management Many have heard about Machiavelli but few have really read and understood him Ralf Lisch s analysis of The Prince proves that widespread associations with evil management are a thorough misunderstanding He has done away with historic ballast and abstains from a moralizing approach that does not do justice to Machiavelli s works Instead he lets Machiavelli have his say and provides a positive and pragmatic interpretation of the wisdom of The Prince from a management perspective It is a fresh approach that combines theoretical analysis with a practical focus Dealing with a wide range of essential management topics like careers success intellect decision making trust change management knowledge management mergers and acquisitions networking sustainability business ethics working processes and many others this book proves that the basics of management have hardly changed over half a millennium Ancient Wisdom for Modern Management is an amazing insight into the essentials of management and a workable guidance to success in daily business This open minded and compelling exploration of The Prince combines reading pleasure with a great opportunity to participate in Machiavelli s truly timeless wisdom *Machiavelliana* Michael Jackson,Damian Grace,2018-06-05 In Machiavelliana Michael Jackson and Damian Grace offer a comprehensive study of the uses and abuses of Niccol Machiavelli s name in society generally and in academic fields distant from his intellectual origins It assesses the appropriation of Machiavelli in didactic works in management social psychology and primatology scholarly texts in leaderships studies as well as novels plays commercial enterprises television dramas operas rap music Mach IV scales children s books and more The book audits surveys examines and evaluates this Machiavelliana against wider claims about Machiavelli It explains the origins of Machiavelli s reputation and the spread of his fame as the foundation for the many uses and misuses of his name They conclude by redressing the most persistent distortions of Machiavelli **Handbook of Organization Theory and Management** Thomas D. Lynch,Peter L. Cruise,2005-11-01 Few subjects are more influenced by philosophy than the form of governance that guides and administers public affairs yet much of the literature about public administration remains silent about this connection Handbook of Organization Theory and Management The Philosophical Approach Second Edition identifies and discusses many of the mos Trump and Political Philosophy Angel Jaramillo

Torres, Marc Benjamin Sable, 2018-06-12 This book aims to recover from ancient and modern thinkers valuable arguments about statesmanship leadership and tyranny which illuminate reassessments of political science and practice after the election of Donald Trump Like almost everyone else contemporary political scientists were blindsided by the rise of Trump No one expected a candidate to win who repeatedly violated both political norms and the conventional wisdom about campaign best practices Yet many of the puzzles that Trump's rise presents have been examined by the great political philosophers of the past For example it would come as no surprise to Plato that by its very emphasis on popularity democracy creates the potential for tyranny via demagoguery And perhaps no problem is more alien to empirical political science than asking if statesmanship entails virtue or if so in what that virtue consists This is a theme treated by Plato Aristotle and Machiavelli among others Covering a range of thinkers such as Confucius Plutarch Kant Tocqueville and Deleuze the essays in this book then seek to place the rise of Trump and the nature of his political authority within a broader institutional context than is possible for mainstream political science
