Carmen Fracchia,2019-10-10 Black but Human is the first study to focus on the visual representations of African slaves and ex slaves in Spain during the Hapsburg dynasty The Afro Hispanic proverb Black but Human is the main thread of the six chapters and serves as a lens through which to explore the ways in which a certain visual representation of slavery both embodies and reproduces hegemonic visions of enslaved and liberated Africans and at the same time provides material for critical and emancipatory practices by Afro Hispanics themselves The African presence in the Iberian Peninsula between the late fifteenth century and the end of the seventeenth century was as a result of the institutionalization of the local and transatlantic slave trades In addition to the Moors Berbers and Turks born as slaves there were approximately two million enslaved people in the kingdoms of Castile Aragon and Portugal The Black but Human topos that emerges from the African work songs and poems written by Afro Hispanics encodes the multi layered processes through which a black emancipatory subject emerges and a black nation forges a collective resistance It is visually articulated by Afro Hispanic and Spanish artists in religious paintings and in the genres of self portraiture and portraiture This extraordinary imagery coexists with the stereotypical representations of African slaves and ex slaves by Spanish sculptors engravers jewellers and painters mainly in the religious visual form and by European draftsmen and miniaturists in their landscape drawings and sketches for costume books

Gillespie,2017-08-24 This is the third volume of a projected five volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slew each other In departing from the various theories put forward by historians

anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications during the first four thousand years of human civilisation for which written records exist *Unhumans* Jack Posobiec, Joshua Lisec, 2024-07-09 NEW YORK TIMES USA TODAY and PUBLISHERS WEEKLY NATIONAL BESTSELLER If you don't understand communist revolutions you aren't ready for what's coming The old rules are over The old order is over Accusations are evidence Activism means bigotry and hate Criminals are allowed to roam free Citizens are locked up An appetite for vengeance is unleashed to deplatform debank destroy This is the daily news yet none of it's new Patterns from the past make sense of our present They also foretell a terrifying future we might be condemned to endure For nearly 250 years far left uprisings have followed the same battle plans from the first call for change to last innocent executed from denial a revolution is even happening to declaration of the new order *Unhumans* takes readers on a shocking sweeping and succinct journey through history to share the untold stories of radical takeovers that textbooks don't teach And there is one conclusion We're in a new revolution right now But this is not a book about ideology or politics *Unhumans* reveals that communism socialism Marxism and all other radical isms are not philosophies but tactics tactics that are specifically designed to unleash terror on everyday people and revoke their human rights to life liberty and property These are the forces of unhumanity This is what they do Every Single Time *Unhumans* steals their playbook breaks apart their strategies piece by piece and lays out the tactics of what it takes to fight back and win using real world examples *Unhumans* is an essential read for every concerned citizen both in the US and worldwide We must stop what is coming *The Midnight Kingdom* Jared Yates Sexton, 2023-01-17 From the author of *American Rule* and the host of The Muckraker Podcast an ambitious account of how white supremacist lies religious mythologies and poisonous conspiracy theories built the modern world and threaten to plunge us into an authoritarian nightmare To fully understand these strange and dangerous times Jared Yates Sexton takes a hard look at our nation's history namely the abuses committed by those in power and the comforting stories that shaped the way the West has viewed itself up to the present As reactionaries and authoritarians cling to myths about Western civilization *The Midnight Kingdom* exposes how political power religious indoctrination and economic dominance have been repeatedly weaponized to oppress and exploit sounding an alarm for what lies ahead as the current order frays Beginning with the Roman Empire and racing through centuries of colonization war genocide and the recurring clashes of progress and regression Sexton finds our modern world at a crossroads In an echo of past crises we have arrived at a time of historic inequality and a fading trust in our institutions Meanwhile authoritarianism is gaining momentum and the progress of the twentieth century is being rolled back at dizzying speed This catastrophic moment holds terrible potential for a return to a totalitarian past or potentially a better realer more human future The difference depends on a true reckoning with our history and the larger forces at play or hiding behind this disastrous fantasy of Western superiority Bracing and compulsively
