Desiring Revolution Jane F. Gerhard, 2001 In the 1970s sex was what mattered most to feminists Gerhard asks why issues of sex and female pleasure came to matter so much to these second wave feminists She shows how the radical ideas put forward by this generation of American women was a response to attempts to define and contain female sexuality going back to the beginning of the century **Frigidity in Woman in Relation to Her Love Life** Wilhelm Stekel, 1926

Seduction and Desire Ilka Quindeau, 2018-03-08 Modern society has introduced many new relationships and family forms and the pluralisation of sexual lifestyles in the hundred years since Freud This book provides a systematic account of the current state of theory developing a gender wide model of human sexuality and outlining the implications of this for psychotherapy practice The author argues that the development of human sexuality follows no innate biological programs but takes place in an interpersonal relationship often established in the early parent child relationship Whereas the current psychoanalytic discourse emanates from a rather rigid division of gender relations emphasizing the differences between men and women the author develops a gender wide model of human sexuality in which the masculine and feminine are integrated and contribute to the full diversity of gender identities and sexual varieties She points to structural similarities of hetero and homosexuality and perversion and calls for a general human sexuality that is based less on differences between men and women than with each other *Memory and Memorials* Jacqueline M. Labbe, 2017-07-05 Focusing on the long nineteenth

century from the French Revolution to the beginnings of Modernism this book examines the significance of memory in this era of turbulent social change Through investigation of science literature history and the visual arts the authors explore theories of memory and the cultural and literary resonances of memorializing Drawing on the work of many of the most influential literary figures of the period such as Tennyson Scott and Hardy *Memory and Memorials* explores key topics such as gender and memory Victorian psychological theories of memory and cultural constructions in literature science history and architecture *Memory and Memorials* From the French Revolution to World War One employs a range of new and influential interdisciplinary methodologies It offers both a fresh theoretical understanding of the period and a wealth of empirical material of use to the historian literary critic or social psychologist *Memory and Memorials, 1789-1914*

Matthew Campbell, Jacqueline M. Labbe, Sally Shuttleworth, 2002-11-01 Ranging historically from the French Revolution to the beginnings of Modernism this book examines the significance of memory in an era of furious social change Through an examination of literature history and science the authors explore the theme of memory as a tool of social progression This book offers a fresh theoretical understanding of the period and a wealth of empirical material of use to the historian literature student or social psychologist
